Planner could be hired in 1982

Councils not invoking new planning policies

Haliburton County's planning strategy document is not being used by the municipal councils it affects, and now county council has decided it must grapple with the problem.

Adopted more than a year ago, the strategy outlines planning policies and principles intended to apply in all county municipalities except Dysart et al, which has its own official plan. But the strategy is complex, provides no means of enforcement, has no legal status under the Planning Act, and has been ruled against at subdivision hearings before the Ontario Municipal Board. Designed as an interim document with a maximum five-year life, the strategy would have to be updated at the end of that time.

But because the document has been gathering dust on municipal shelves while councils make decisions without referring to it, county council's planning committee has decided something must be done.

At a meeting last Wednesday, regional planner Pat Vanini of the provincial housing ministry outlined three options council could pursue with respect to the strategy.

The first is to continue to operate with the strategy, despite its lack of legal status. If that is done, councils will have to make themselves aware of what the strategy contains and try to work with its policies, Vanini said. It might also be useful to hire a full time planner at the county level who could help councils to understand the strategy and to make decisions that support it, she indicated.

That step, however, would do nothing to alleviate the basic weakness in the strategy, which, according to Vanini, is the fact that it does not address shoreline development.

A second option open to council is to undertake a county-wide planning appraisal study that would provide information needed to decide whether or not an official plan is needed for the

county. The appraisal, costing between \$5,000 and \$10,000, would be funded at a maximum of 50 per cent by the province. It would examine such things as budget requirements, the relationship between the development strategy and Dysart's official plan, development pressures and development activity, staffing and equipment costs for a planning department, and other related matters, Vanini said.

A third option is to work toward an official plan for the county as a whole, Vanini said. But she urged council to take the second course, noting that the appraisal study would answer many of the preliminary questions about planning matters that would have to be addressed before council could opt for an official plan.

While county council did not appear ready to push for the third option, there was no disagreement over the present status of the strategy document.

"It is quite evident that we are not following the strategy," Monmouth reeve Keith Tallman told council.

"The strategy isn't being enforced, in plain English," Warden Murray Fearney added.

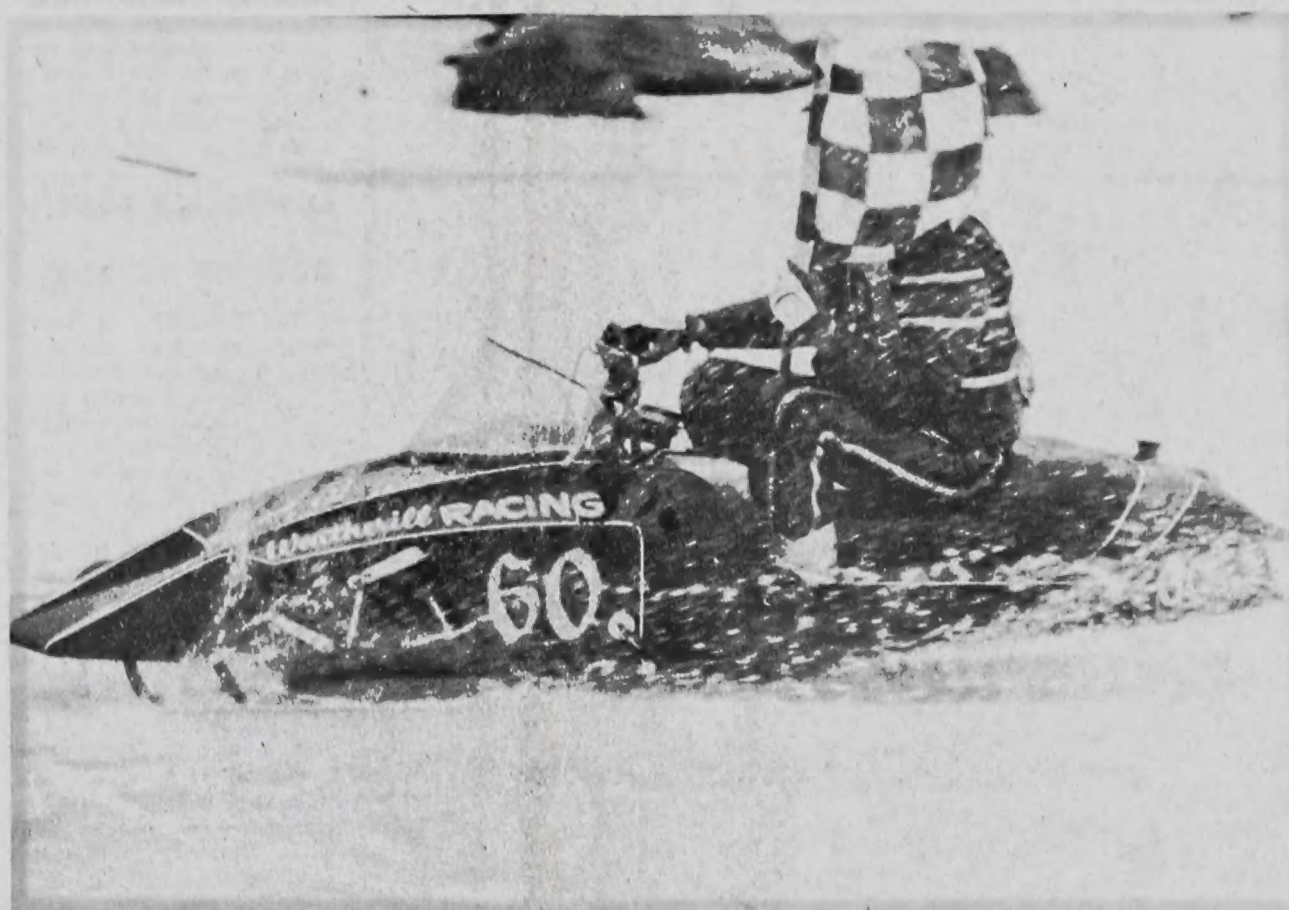

Planning committee chairman Jim Harrison told council that if it opted for the appraisal study, Dysart et al would not share the cost because it already has an official plan. But, he added, the consensus of the planning committee was that the appraisal study should be carried out.

Anson, Hindon and Minden deputy reeve Doug Pritchard was concerned that council may have wasted the money spent on the preparation of the strategy, but Fearney assured council that many parts of the strategy would be applicable in a future official plan.

The warden said he felt it was important that "reeves familiarize themselves with (the planning strategy) document and start to get involved in the planning process." He also urged that any move to hire a county planner be delayed until the spring of 1982.

In the meantime council's

Cont'd. page 2

The track was awash in water but that didn't stop Mike Weatherill of Unionville from celebrating his victory in the Mod. 111 class of the oval snowmobile races held

Sunday on Head Lake. For complete results of Race Haliburton '81, see page 3.

EDC seeks funding increase for 1981, plans furniture manufacturing study

Haliburton County's Economic Development Commission is asking county council for \$16,810 this year, an increase of more than 60 percent from the \$10,000 the EDC received last year.

Commission chairman Glen Hodgson presented county council with a copy of the EDC's proposed budget for 1981 at a meeting last Wednesday, and asked council to consider increasing the commission's budget each year "in order to develop a meaningful program."

"There may well come a time when the only logical alternative to what we are doing with volunteer help would be a full-time commission with a total budget of \$75,000 to \$85,000 per year," Hodgson said in his report.

Among the major items in the commission's proposed 1981 budget are an additional \$3,500 for the maple syrup study which was recently completed, \$1,500 for a framework for opportunity followup, and \$3,000 for a furniture manufacturing study.

The budget also calls for increases in the commission's contribution to Chamber of Commerce office staff salaries, office expenses, and

travel and meeting expenses.

"The commission has, we feel, done a fairly good job of working towards (its) stated goals," Hodgson said in his report to council. "Although we cannot say that we as an organization were specifically responsible for any of the new developments that place this year or are presently being planned for next, we have contributed in some way, either directly or indirectly, towards the total result."

For 1981, the commission hopes to continue updating its community profile data, provide data for a framework for opportunity study to be carried out by the Ministry of Industry and Tourism this year, and promote its programs throughout the county. As well, it intends to hold a development seminar, actively sell Haliburton to Min-

istry of Industry and Tourism representatives, continue developing contacts at the provincial level, present briefs on subjects related to

Assessment appeals total now 1500, hearings next

Almost 1,500 property owners appealed their new assessment under section 86 of The Assessment Act according to an assessment court of appeals representative in Lindsay.

The final total for appeals received by last Tuesday, the last date for appeal, was 1,495 for the municipalities changing to the new assessment in Haliburton county, Chris Harris said Monday.

While some appeals may be received before March 3 from property owners who got an admitted notice, the maximum is not expected to

be more than 30, Harris said.

Now that owners have filed their appeals, these will be fed through a computer which will set up times and dates for the appeals, George Hughson of the assessment appeal court in Toronto said Monday.

According to the law, property owners must receive a notice of hearing at least 14 days before the court date, Harris said.

All hearings in the county will be held in the individual townships, for convenience, Hughson added.

County bracing for increases in costs for seniors home

Haliburton County council is bracing itself for substantial increases in its contribution to the Hyland Crest senior citizens home. At a meeting last Wednesday, committee chairman Ron Gambell warned council that the home's budget will top \$1 million this year in the wake of rising costs for wages, supplies and necessary additional equipment.

In 1980, county council contributed some \$90,000 to the home directly from local taxes, but in 1981, that figure is expected to rise to about \$127,000, Gambell indicated. Wages are a major factor in the anticipated increases, Gambell told council, and now account for more than \$400,000 of the total budget.

The 1981 budget for the home will be up by approximately \$105,000, council was told, and of that total some \$80,000 is for wage hikes.

Hyland Crest has a capacity of 60 residents, and has a full and part time staff of close to 60 people.

The nature of the care provided by the home is changing, Gambell told council, and with that change comes increased costs. The home now has 42 extended care beds for patients needing frequent nursing attention, while it previously had 38 such beds.

"We're not a senior citizens home," Gambell commented. "We're now a chronic care hospital, and there's nothing we can do about it."

Exact details of county council's contribution to the home will be included in council's 1981 budget, expected to be passed next month.

Mild weather

may not hurt

syrup production

The mild weather which has been gracing the Highlands with a two-week preview of spring will not hurt the maple syrup season if the weather turns cold soon, according to one area producer.

Although the mild weather hasn't tempted the sap to start running yet, Wally Crofts said he would be ready for production in about two weeks if the weather is colder.

"The only thing I'm worried about is it (winter) not coming back and not getting cold enough." (If temperatures fall to about 0 (degrees Fahrenheit) for a few days the

Echo editorial honoured in competition

The Haliburton County Echo has been honoured a third time in this year's Ontario Weekly Newspaper Association better newspapers competition.

The Ontario Ministry of Culture and Recreation announced this week that an editorial written by Echo editor Len Pizze had received honourable mention in the arts category of that ministry's annual awards.

The editorial urged people in the community to take advantage of art exhibits at the Raily End Station Gallery.

A framed certificate signifying the honour will be presented at the association's convention next weekend.

The women of Margaret Laurence was the third offering in the Guild of Fine Arts concert series. The performance took place Friday in the HHSS auditorium. The series will wrap up later this spring.

Three seek Victoria/Haliburton seat at Queen's Park

Economy, jobs are issues that concern John Eakins

by Sue Cooper

John Eakins will be basing his political campaign on his good track record at Queen's Park as well as airing his opinions on the general economy, tourism, agriculture and industry.

"As a member I feel I've been successful in making sure that the doors of Queen's Park were open to the people by being available to them, by opening a full-time constituency office and one a couple of part days in Haliburton as a contact centre," the Liberal incumbent said Monday.

In the past, hundreds of people, from Haliburton county have visited Queen's Park and Eakins said he hopes this has made them feel they are welcome in the legislature at any time.

"When I was elected there were two or three things I wanted to do and that was to make sure that the people had access to their member and I hope that as a result of these five and a half years they feel they do have access. In fact, on a daily basis I'm receiving

calls from Haliburton, and that's good," Eakins said.

"Secondly, that they have access to Queen's Park, not only as visitors, but I do go with them personally to Workmen's Compensation board hearings, Ontario transport board hearings and any other hearing that it is necessary for me to attend," Eakins continued.

Turning to this year's problems and the election, Eakins said he is concerned about the area's future and the present economic conditions.

"I feel that the economy and the role that the two counties play is very important to the future. As far as Haliburton is concerned, I'm concerned as to whether they're receiving the assistance they should in their geographic location."

"I have introduced, along with a colleague of mine, a resolution to the legislature asking the province to determine the difference between northern and southern Ontario."

"The present government

almost looks upon Haliburton as too far south to receive the good things of northern Ontario. And an example of that is the \$10 licence plate which I feel Haliburton is just as entitled to it as Parry Sound," Eakins said.

"They determined northern and southern Ontario by the French River but certainly they move away from that when it comes to the \$10 licence plate because Parry Sound doesn't qualify. But I feel that Haliburton's geography and economy means that Haliburton should be fairly considered for the same benefits as Parry Sound."

"Secondly, for the establishment of industry, they're (Haliburton County residents), almost too far north for the southern Ontario market so I think that Haliburton has a special case to make," Eakins said.

As well as focussing on local issues, Eakins is concerned about the general state of the province's economy which, according to the Liberal candidate, should be a focal point in the upcoming election.

"The general economy of the province should be aimed in the election because Ontario's position has drastically changed compared to other provinces. This is seen by the fact that the Economic Coun-

Cont'd. page 2

Riding needs PC member hopeful Dave Murray says

by Sue Cooper

Having a parliamentary member sitting with the government ensures better representation, according to the Progressive Conservative candidate, David Murray.

After serving more than 12 years in municipal politics in Victoria County, Murray said he has the experience and necessary background to handle the problems faced by a member of provincial parliament.

"I think I realize that the economy is the number one priority not only in the province of Ontario but particularly the riding of Victoria-Haliburton. That's where my personal interest is and my energies will be directed to that end if I'm elected."

"Further, I believe that the people of this riding see Bill Davis as the only leader capable of leadership that will be necessary to achieve a strengthening economy in the '80's. And they're the party with the program that is formulated towards that end."

"A vote for Progressive

Conservative Dave Murray ensures that the riding of Victoria-Haliburton will have a team member on the government's side at Queen's Park," Murray said.

"I also believe that it's time now for this riding to have its fair share of economic support from the ministries that effect it, for example tourism, agriculture, industry, education and our not to be forgotten, senior citizens," Murray said.

"Now you ask me why vote Progressive Conservative? The answer is simply because your member with the government of Ontario would be an active, dedicated team man. To me, personally, that kind of philosophy makes good sense. That's mainly the reason I am seeking to be elected," Murray said.

With the economy in the area and the province as his prime concerns, Murray is also interested in seeing the riding move ahead.

"I am a believer, I believe that we can basically do a lot better than what is being

done, particularly in this riding of Victoria-Haliburton. I intend no personal attack on the incumbent member because I think he's a first rate citizen trying to do a good job. I just think that it is very difficult for him when he's not on the right side of the government."

"I really don't have any

doubts that Bill Davis' government will go back in, that's the message I'm getting when I'm travelling around," Murray said.

"If one accepts that philosophy then, it sure seems common-sense to me to have a member on that team at Queen's Park," Murray said.

NDP policies best suited to riding, Art Field says

by Sue Cooper

In the upcoming provincial election, (New Democratic Party) candidate, Art Field, will be holding his party's banner high as he feels his policies best suit the people of Victoria-Haliburton.

"Our party has the policies which suit the people of Victoria-Haliburton as well as the people of Ontario. The governments that we have had, not in Ontario of course, but in Saskatchewan and British Columbia, have proved that," Field said.

"We believe in promoting the tourism aspects of the area. We believe in secondary industry. We've had a problem here in Lindsay on industry. There have been a

couple plant shut-downs and things weren't handled properly," Field said.

While Field is interested in the local problems his ties with the provincial association should help him to deal with these problems, he said.

"Our party has been in the forefront in the plant shut-downs that have happened in Ontario," he said.

The NDP have been involved in getting better deals for the workers who have been left without jobs or benefits when large industries have shut down, Field said.

As well as promising to deal with the problems of the area if elected, Field is concerned with the type of

Cont'd. page 2

Economy an issue

from page 1
cil of Canada and others say that Ontario economy in every way has not grown as fast as the other provinces have. I think this is demonstrated by the fact that so many thousands, (I think last year 30,000 people), left Ontario for mainly western provinces and some for down east," Eakins said.

"I'm concerned by the lack of apprenticeship programs and the availability of work to people in Ontario. I think that after ten years Mr. Davis should have been doing more to train our young people for skilled jobs."

"This is demonstrated by the fact that Ontario Hydro is recruiting today, in England for skilled labour to come out and take jobs with Ontario Hydro and I think that's a condemnation of our activities to date. This should never happen, surely, in a country or province where young people are walking the streets. Many people in

Haliburton are calling me daily looking for jobs and they're just not available because we really haven't answered the need of skilled training," Eakins said.

Although these may be primary concerns to the Liberal candidate he noted other matters also need the government's attention.

"I want our tourism industry to have a much higher profile than it has ever had and I'm concerned also for the agriculture industry because we need a great deal of change. We're importing too much into our county and I think we should be using more Ontario produced goods."

"So these are some of the basic things which concern me. I feel that I've been able to have a good rapport with the people, and I hope that I'm going to have the opportunity to be re-elected," Eakins said.

Advance poll planned

An additional advance poll will be provided for qualified Ontario voters in the 32nd Ontario General Election.

Provisions have been made for a third advance poll to be held on Thursday, March 12. This date will be particularly useful to those qualified voters planning to be away on vacation.

Advance polling days are scheduled for Thursday, March 12, Saturday, March 14 and Monday, March 16 for the convenience of voters who

expect to be unable to vote on polling day. Advance polling hours are from 11:00 a.m. to 8:00 p.m. Elderly and handicapped voters, especially, may find it easier to vote at the advance polls to take advantage of more accessible locations.

Assessments

from page 1

However, those appeals will probably not be heard until late spring or early summer because the assessment appeal court has only 80 part-time members to hear more than 100,000 appeals across the province, Hughson said.

Maple syrup

from page 1
season should be good really. "If it doesn't do that, your guess is as good as mine," Crofts said Monday.

Crofts, who has about 8,500 taps "give or take a hundred," said the milder weather has actually been a help so far, since it has melted much of the snow in the bush and made snowshoe travel much easier.

However if the milder weather doesn't end, the sap may not be available for syrup.

"If we don't get a frost, it won't run," Crofts said.

Constable Gary Chapman of the Minden Detachment of the Ontario Provincial Police is ready to open the doors on the force's new office in Haliburton Village. The office, which will be available for officers' use in the village, is located in former location of Stedman's garden centre.

Museum owner will appeal taxes

The future of the Kanawa canoe museum could be bleak if rising costs and little incoming money continue to make it a losing proposition.

In an effort to preserve the museum, located adjacent to Camp Kandalore in Stanhope Township, owner Kirk Whipper, is appealing the property taxes and asking Stanhope council to request a grant from county council.

At Stanhope council's regular meeting earlier this month, Whipper said he would be appealing his assessment under section 86 of The Assessment Act in hopes of saving about \$500 per year. If his appeal to have the property listed under a different classification is successful, it would save the museum approximately \$300 a year, according to Stanhope clerk Gerald Bain.

"He will be appealing that assessment on the grounds that it is incorrectly assessed. It was Mr. Whipper's opinion that the property was assessed in the wrong classification," Bain said.

Presently the museum is classed partly as residential and partly as commercial property in another class, Bain said. If he wins the appeal, Bain said, business taxes would be eliminated and if the commercially zoned property is changed to residential property the tax saving would be approximately \$200, Bain added.

Whipper would also like Stanhope's reeve, Jim Harrison to ask county council to help support the museum as a tourist attraction, Bain said.

Once both of these steps are taken, council will probably consider the museum's position further, Bain said.

"The existence of it within the county contributes to the economy of the county," Bain said. "Hopefully, there's a good possibility that it will remain."

Stanhope council approves tool purchase

At the February meeting of Stanhope Township council, the following matters were discussed:

Council acknowledged receipt of minutes of a community centres board meeting held January 15, 1981.

Council approved the purchase of the RS 10 Extricator and C10 Air Cutting Gun by the Stanhope Fire Department with the understanding the account is not required to be paid until April, 1981.

Council acknowledged receipt of the fire chiefs' report dated February 11, 1981.

Council adopted a total of \$266,710, as a proposed ex-

penditure on the 1981 road program. These expenditures will be made in accordance with the Public Transportation and Highway Improvement Act.

Council requested a supplementary of \$40,000 subsidy dollars from the Ministry of Transportation and Communications to be expended in accordance with the Public Transportation and Highway Improvement Act during 1981.

Council agreed in principle to accept a deed from Mr. Elgin Stouffer for a 66' allowance for road as outlined in red on presented plan. It is understood that no maintenance or construction on the road shall be undertaken by the township until the road is brought to municipal standard and approved by the Ministry of Transportation and Communications.

Council agreed in principle to consider the passing of a road allowance opening by-law for vehicular traffic between Concessions VIII and IX from Highway 35 in a westerly direction approximately 900 feet more or less, as requested by Mr. Brian Cross. This agreement is subject to the proposed by-law meeting the approval of all necessary and appropriate authorities. It is understood that no assumption of the road by the municipality will be considered until it is brought to a municipal standard and approved by the Ministry of Transportation and Communications. A "Hold Harmless Liability Agreement" shall be deposited with the municipality prior to any commencement of road construction upon successful completion of a road allowance opening by-law.

The clerk will contact the Ministry of Transportation and Communications requesting the present status of County By-law #1082 and suggest this by-law be given urgent attention which will allow the municipality to complete original plans for this road in the near future.

Council concurred in principle with the Ministry of

Housing guidelines on road closings (shoreline) as submitted to the county council in a letter dated December 18, 1980.

Council requested the maximum amount of eligible monies from the Ministry of Housing for the continuance of the Ontario Home Renewal Program by this township for the 1981/82 provincial fiscal year.

Council adopted the minimum standards for the Ontario Home Renewal Program 1981/82 as set out in the Ontario Home Renewal Administration Guideline Booklet.

Council appointed the following as fire wardens representing this township for 1981: Gordon Martin, Robert Jennings, Larry Hewitt, Rob-

ert Nangle, Ray Welch, Dale MacDonald and James Moore. Mr. James Moore is hereby appointed as chief fire warden for 1981. The following persons are appointed as permit issuers: Mr. Andrew Broersma, Pine Springs; Mr. R. C. Baker, Hall's Lake; Mr. James Moore, Municipal Office and Mr. Harold Burton, Carnarvon.

Council supported a resolution passed by the Regional Municipality of Hamilton-Wentworth with respect to increased penalties for certain criminal offences within our judicial system.

Council authorized the refund of 1980 business tax for four (4) months on property described in file #81-1 in

Cont'd. page 14

Spring comes early as temperatures soar

Spring came a little early to the Highlands this past week, as temperatures soared well above freezing and rain replaced the snow that might have been expected in late February.

Highest temperature recorded over the period of February 16 to 23, (Monday to Monday), was 9C. on Sunday. Lowest temperature recorded was 0C. Rainfall totalled 15 mm. while there was no snowfall.

The combination of rain and unseasonably warm temperatures has caused snow to all but disappear in some southern parts of the county, and on slopes exposed to the sun. Depths now range from a low of about 8 cm. in the south-eastern part of the county to 45 cm. in the north-west.

Ice remains thick, with depths up to 70 cm. but conditions are considered poor because runoff has caused some ice to melt and become unstable, especially around river and stream mouths.

Continued rainfall coupled with mild temperatures could present a risk of flooding in susceptible areas later this week.

Snowmobile and cross country ski trails are in very poor condition, and will not improve until more seasonal temperatures return and a new layer of snow falls. And that isn't likely to happen this week, with mild temperatures expected to continue and more rain called for by Thursday or Friday.

Art Field

from page 1
representation the riding residents receive.

"As an MP, I know that I could give representation on a person to person basis," he said.

There wasn't much winter but carnival drew crowds

Snowmobile races, dances, breakfast well attended

Competition keen in oval races

The excitement of oval track snowmobile racing drew spectators and participants to Head Lake Sunday for the second day of Race Haliburton '81. The weekend of racing had been planned for months, and more than 200 entries were expected to turn up. But fate intervened in the form of unseasonably warm temperatures and rainfall, turning parts of the ice track into a watercourse and keeping many competitors at home.

Those who did turn up, however, put on a thrilling show as they slid around corners and blasted down the straightaways to vie for the Echo Cup, which went to the overall points winner at the end of the day.

A total of 56 entries were received in the various classes, and when the last engine had been shut off, Bob Kendall of Port Perry had ridden his Yamaha to top spot, followed by Eldon Wallis of Orillia on a Mercury.

Overheating and other mechanical problems plagued many of the racers due to the warm weather, and organizers allowed a cooling off period between heats to save the machinery as much as possible, an approach which drew praise from the competitors.

In the Modified Stock 1 class, Joe Clark of Kingston on an Arctic Cat was the top rider, followed by Jerry Aurameczuk, also of Kingston, riding a Skidoo.

Mechanical problems

Modified 11 was taken by Mike Weatherill of Unionville on a Skidoo, followed by Clark. Weatherill also took Mod. 111, with Clark in second spot.

The Fan stock 111 class was taken by Vince Hammond of Haliburton on a Yamaha, while Kelly Goreski of Port Perry on a John Deere took second spot.

In Free Air 1, Bill Logan of Peterborough was first on a Skidoo, followed by Peter Connelly of Haliburton on a Yamaha.

F/A 11 honours went to Wayne Harnden of Grafton on a Skidoo, with Bill Logan of Peterborough on a Skidoo coming in second. Harnden also took F/A 111, followed by Logan.

In Liquid Stock 1, Bill Turner of Ashburn on a Mercury crossed the line first, followed by Logan. Liquid 11, 111 and 1V were a two-man show, as Bob Kendall and Eldon Wallis finished one-two.

Super Stock 1 went to Wallis on his Mercury, followed by Mike Maynard of Markham on a Yamaha.

In Super Stock 11, Kendall again edged out Wallis for top spot.

By the end of the day, Kendall had amassed a total of 110 points, while runner-up Eldon Wallis had a total of 81 points for the day.

Photos by Len Pizze

Nancy Shipley is Carnival Queen

Nancy Shipley of Haliburton was crowned Queen of the Haliburton Winter Carnival at the teen dance Friday night at the Dysart arena. Last year's queen, Tammy Dewey was on hand to crown the new queen, who reigned over the events of the carnival.

Also reigning were princesses Janine Austin and Margie Newton.

The winners, all students at Haliburton Highlands Secondary School, were chosen by the Rotary Club of Haliburton.

Snowmobile drags held Saturday

The weather was warm and the track was wet but the snowmobile drag races that formed one half of Race Haliburton '81 were held on Saturday nonetheless. And although participation was less than organizers had hoped, some 31 entries were received for the various classes of the drags.

Dominating the day's racing was Al Cummings of Duro riding a Polaris. He amassed a total of 80 points with victories in four of the nine classes, and took home the Race Haliburton Cup as well as cash prizes.

Runner-up in overall points was Peter Connelly of Haliburton who rode his Yamaha down the strip for two wins and a total of 20 points.

In the Fan 1 class, Connelly was the winner, followed by Jeff Schultz of Gooderham on a Skidoo.

Winner of the Fan 111 class was Vince Hammond of Haliburton on a Yamaha, while second place went to Bill Meyer of Toronto on a Skidoo.

The F/A 1 class was also taken by Connelly, while Gary Pringle of Haliburton took second spot on a Skidoo.

Duro man takes title

In the F/A 11 class, Al Cummings was the winner, followed by Gary Brown of Minden who rode a Rupp.

Cummings also took the F/A 111 class, with Eric Kuiper of Toronto powering his Skidoo to second spot among seven competitors.

The Liquid 11 category was taken by Doreen Cummings of Duro on a Polaris. Archie Moore of Dundalk drove his Mercury to second place.

The Liquid 111 class was dominated by Martin Richards of Ariss riding a Yamaha, with Vince Hammond on an Arctic Cat taking second spot.

In Liquid 1V, Al Cummings and his Polaris took the title, followed by Brent Colman of Minden, also on a Polaris.

In Modified 111 competition, Cummings was once again the winner, followed by Ron Heaslip of Peterborough on a Skidoo.

ECHO EDITORIALS

Dusting it off

It came as no surprise last week when Haliburton County council revealed that its planning strategy document is not being used by most councils around the county. At meeting after meeting while the document was being prepared its complexities and vagueries appeared to have many councillors baffled. Others showed little interest in it. And since the strategy was adopted more than a year ago, it has sat largely unused, gathering dust in municipal filing cabinets, its hundreds of pages unread, its various suggestions unheeded.

The strategy was viewed as an interim document; a step along a road to sound planning that many councils were less than anxious to follow. But even before it was adopted its weaknesses were glaringly apparent. Dysart, which already had an official plan, was excluded. Lakeshores, which are the focus of most of the development pressure in the county, were not addressed, ostensibly because no method of determining a lake's capacity for development had been determined. And to make matters about as bad as they could be, the Ministry of Housing refused to grant the document any legal status. Its guidelines had no teeth. The Ontario Municipal Board could ignore them demanding changes in subdivisions which councils had thought were acceptable.

Now, council has decided that something must be done. It has two basic options, aside from leaving things as they are. It can hire a full time planner to administer the strategy and help local councils make sound planning decisions. Or it can carry out an appraisal study that would lay the groundwork for a county official plan. And at last week's meeting, it left the door to both options open.

Happily, councillors have decided that they must begin to learn more about planning. The reeves of all the municipalities have agreed to familiarize themselves with the strategy, and to see that its policies are carried out. And council as a whole has agreed to call for the appraisal study and to consider a full time planner next year.

What remains is to pursue an official plan. That is a step that council may want to delay, but it is one which, it now seems abundantly clear, it cannot avoid.

The Chamber's challenge

The challenge is out. The Haliburton Highlands Chamber of Commerce has asked county council to double its financial support for the Chamber's activities. In exchange, the Chamber has promised a more ambitious marketing program; one it hopes will come closer to serving the needs of the whole county than have its programs in past years. And the Chamber has also indicated that it is willing to listen to members' complaints without getting defensive, an attitude change that is sure to be welcomed. What remains to be seen is whether or not county council will respond as generously as the Chamber hopes.

County councillors can be forgiven if they view with a healthy skepticism, the Chamber's request for a good deal more cash. There have been many occasions in the past when the Chamber's actions and attitudes have angered a number of councillors. Those councillors could hardly be expected to embrace whole-heartedly changes the Chamber says it will make. But the Chamber's request does deserve careful consideration. For the truth is that money spent on a soundly thought out promotional program would be money well spent; money that would return to the county in the years ahead.

Chamber manager Bob Stinson told council that a contribution of up to \$25,000 would enable the Chamber to carry out a marketing program in the Toronto area that could include some outdoor advertising, as well as more promotion through newspapers and other media. Signs would also be put up on some major highways in hopes of directing more traffic to the Haliburton area. A toll free telephone line is already in place, and Lure brochures will once again be distributed. These steps appear to be sound ones. They demonstrate that the Chamber is interested in responding to an increasingly competitive market place. But is county council ready to give more than token support for that interest? The ratepayers should ensure that it is.

Most councillors are well aware that they were elected to spend taxpayers money wisely. Sometimes, however, that mandate is misconstrued as an obligation to spend as little as possible. While budgets must be watched, and cuts made wherever reasonable and prudent, funds must also be spent for the benefit of the community. The Chamber's proposed marketing program may not represent the best that could be done. But it does appear to represent a substantial improvement. And it deserves a chance. County council should up its support for the Chamber and keep a careful eye on the results. If the program works, the local tourist economy should benefit. If it does not, council can always reduce its support next year.

LETTERS to the EDITOR

To the Editor:

On November 25, 1980 Harry Parrott, Minister of the Environment announced that South Cayuga had been selected as the location for an industrial waste disposal facility destined to handle all of Ontario's industrial waste, currently estimated at some 60 million gallons a year.

As a citizens group our major concern is with the manner in which that announcement was made and the dangerous implications behind that announcement - implications which affect all of Ontario. For when the government announced its decision it stated that there would be no Environmental Assessment Hearings nor Expropriation Hearings.

We are not saying, nor have we ever said, that we don't want the 'dump' in our backyard. All we have ever asked for is our right, according to existing legislation, to a full Environmental Assessment Hearing in order that all the facts be brought out, both pro and con, so that Ontario will not have to deal with its own Love Canal.

The number of organizations and associations endorsing our demands for such a hearing is growing, and while too numerous to list, they do include: Canadian Environmental Law Association, Pollution Probe, Greenpeace, Baptist Convention of Ontario and Quebec, Ontario Federation of Agriculture, Consumers Association of Canada (Ontario), Ontario Christian Farmers plus some 250 Ontario municipalities.

We, as citizens, are being extremely reasonable about this issue - we are asking for nothing more, nor will we settle for anything less than a hearing under the Environmental Assessment Act. The

Ontario government has chosen to circumvent its own legislation and refuses to listen to us.

We urge you to consider the seriousness of this problem - for while this particular topic is South Cayuga and an environmental issue - if the government's dictatorial attitude goes unchallenged - next time it could be you and your community over another issue.

If the government cares so little for the rights of 40,000 people in our area - do you really think they will care or listen to you?

Think carefully before you cast your vote on March 19.

Yours truly,

Rene Tunney,

for H.O.P.E.

(Haldimand-Norfolk Organization for a Pure Environment),

Dunnville, Ontario

To the Editor:

We wish to thank you for Creighton Feir's report about our Income Tax Clinic. We had an excellent response, and now are happy to have capable, willing volunteers in each community ready to help seniors with income tax forms and questions. Our telephone number is 457-2941.

We are concerned also that each senior living alone has a telephone partner so that a daily call or visit is made. If any of your readers wish to have such a partner or wish to be a partner we would be happy to hear from them. Fone-a-Friend - 457-2941. We care!

Yours truly,

Doris McCann,

Chairman,

Haliburton County Home Support Services

As others see it

People couldn't help but be gratified by the large crowd that turned out for a special seminar this past weekend on drug abuse, a seminar at Gananoque Secondary School.

The seminar featured various knowledgeable panelists who are acquainted with the world of drug abuse and whether it is prevalent in Gananoque or not.

The fact that so many people turned out to hear what they had to say indicated two things, as far as we are concerned.

First of all, it showed that there are people out there who do not view the subject of drug abuse apathetically and secondly there must be a problem in this area, as there is everywhere else, with drugs and their abuse.

We also agreed with speakers who stated that alcohol was a major drug abused by the public at large. Alcohol has a privileged status in our society, so much so that its use, over-use and abuse is tolerated and even considered acceptable where the use of other drugs is not. This also applies to

drugs available through prescription.

The problem of drugs and their abuse must be confronted by society, and the seminar was a positive step forward in that regard, even if there are a tendency to minimize drug abuse in Gananoque as a problem not as severe as it is elsewhere.

Further to the point, the only negative aspect to the seminar, we felt, was the fact that some speakers blamed the media for ostensibly distorting the amount of drug abuse among the young.

The media is the most popular scapegoat of all for those who do not do their research into their accusation and for those who too readily forget the exposure young people get in the media when they are contributing readily to society.

Nonetheless, we are pleased that people in the community feel disposed to discuss the subject of drug abuse and, better yet, go to a seminar because they have legitimate concerns.

-Gananoque Reporter

Feir Play

by
Creighton Feir

There is one thing that we apparently can't do anything about. This is the weather. It doesn't always suit us but we can't seem to change it. This was the case over the past weekend when we wanted snow and cold weather and got everything but. The rain and lack of snow forced the cancellation of most of the outside events but all those activities which were held inside were a great success. The three dances were all sold out, well over 200 people attended the pancake breakfast, the Chalkdusters hockey tournament was a great success, along with the Hiram Walker Curling Bonspiel. It was a case of going with what you've got. While on the subject of the Haliburton Winter Carnival, we can't let it go by without offering our congratulations to the carnival chairman, David Bishop, who worked hard for weeks making sure that all of the committees were at their posts during the weekend. Another big thank you to Pat Kennedy, race director and Bob English, co-chairman of Race Haliburton '81, who both worked a total of 160 hours preparing for the weekend. These two gentlemen fought the odds when anyone with a weaker heart would have thrown up their arms, given up and cancelled the whole affair. These two men never gave up hope and day after day even when it was raining they tried to keep the track in shape. Came the weekend and time for the races, conditions were anything but good and in the tradition of show business they felt that the show must go on. The races went on both days and even though some events had to be cancelled large crowds were near the lake area both days to see the thrilling snowmobile races. Given good weather conditions another year we should see some top notch races. The races this year were presented by Race Haliburton in cooperation with the Haliburton Rotary Club and Labatts Awards.

The warm weather we have been experiencing for the past week and a half along with all of the rain has brought winter to an abrupt halt. There is really very little snow left and although this break in the weather makes us think that spring can't be too far away it has also had an adverse effect on events and business. The weather conditions really played havoc with the Haliburton Winter Carnival and many winter events that have been scheduled for the end of February and the first two weeks in March either have had to be cancelled or it may take a miracle to get them off the ground. Many cross country ski tours and snowmobile events have had to be cancelled and the big event scheduled for Sir Sam's Inn at Eagle Lake this Saturday is all postponed.

I have in front of me a report on the Bacteriological Examination of Water taken recently at Dovers Spring near Haliburton. As a great many people in Haliburton and area use this water from time to time for drinking purposes we thought that everyone would be interested in this latest water sample. We are glad to report that as of February 11th when this sample was taken the water was absolutely pure. We are sure that everyone will be glad to hear this.

The Jack Robertson Memorial Bonspiel is in progress today (Wednesday) at the Haliburton Curling Club.

Friends of Ray Forrest will be sorry to hear that he passed away on Saturday, February 14 at the Scarborough General Hospital. Ray had a home on Kashaga Drive for years and was well-known in Haliburton and area. He will really be missed.

On the latest report that we have on Snowarama we learn that this year 167 riders participated and raised approximately \$21,000 between the Haliburton and Minden Rotary Clubs. A total of \$18,000 was raised last year. Congratulations to everyone who took part.

Because of weather conditions the Haliburton Highlands Senior Elementary School have had to cancel all outdoor activities they had planned for Haliburton Winter Carnival week. Those who elected to go bowling will still be able to do this and all other students will be skating at the arena. The juniors attended these events on Tuesday and the seniors will go this Thursday.

Gary Chapman, Community Service Officer for the Minden Detachment of the Ontario Provincial Police was the guest speaker at the Monday night meeting of the Rotary Club of Minden. He presented a very interesting film on the operation of the OPP which highlighted the new recruits in training. The many questions that followed showed the great interest the members had on this subject. Gary handled all of the questions in his usual smooth and humorous manner.

My congratulations to Nancy Shipley of Haliburton, the new 1981 Haliburton Winter Carnival Queen who was crowned at a dance held at the arena auditorium in Haliburton last Friday evening. Congratulations also to the two princesses Janine Austin and Margie Newton.

We would like to remind all of the residents of Monmouth Township that the Monmouth Museum Committee requires articles for display in the Centennial Museum. They should be at least fifty years old. If you have anything of interest please contact Mrs. Edith Daniels at 448-2671 before the first of April.

Mr. J. Douglas Hodgson, Director of Education will be the guest speaker at a public meeting to be held at the Haliburton Legion on Tuesday, March 3, 1981 at 8:00 p.m. Mr. Hodgson will be explaining Bill 82 which is new legislation affecting special education in the province.

Pic of the Past

Our pic of the past this week shows a gathering at South Lake, Snowdon Township in 1910 at the home of Mr. and Mrs. George Howse. They lived beside the present site of Hospitality Inn. They farmed and kept visitors, or tourists as we would now say. Back row, Mrs. George Howse, unidentified, Miss Maude Howse, Mrs. Philipps, Mrs. J. B. Sedgwick (nee Anna Allen). Front, unidentified, Mrs. Ernest Sedgwick (nee Sadie Philipps) holding her son Ralph, Mr. J. B. Sedgwick holding his nephew De Willett. Mr. George Howse, Mr. R. C. Garratt. Mr. Ernest Sedgwick was

in Saskatchewan in the summer of 1910, looking for a farm. He bought land near Duval and the next year moved his family there. Ralph Sedgwick has a garage and is a machinist at Strathburg, Saskatchewan. De Willett died in Victoria, B.C. in November 1977. Mr. R. C. Garratt, an uncle of Mrs. Howse, was a Quaker gentleman. He was Justice of the Peace in Minden at the turn of the century. Our thanks to Mrs. J. B. Sedgwick of RRI, Minden for submitting this photo.

Bill Smiley

I remember writing something about teachers' "burn-out rate" in an early column. With the eager help of my English department, I'm rapidly approaching the condition of a cinder.

The original article, written by Calgary teacher and psychologist Stephen Truch, gave the symptoms for teacher burnout, which is third to only surgeons and air traffic controllers. Here they are:

Constant fatigue, insomnia, and depression. I have the first two. Let my wife look after the depression, though she's also got the other two, just from living with a teacher.

Every time I start getting depressed, I think back to the late fall of 1944, when I was locked in a railway freight car. I didn't have rings on my fingers, or bells on my toes. I had bars on the windows, and wire tying my wrists and ankles together. And a face that looked as though I'd challenged Muhammad Ali when he was in his prime. That always makes me immediately undepressed.

It also makes me turn up the heat and go out and buy a lot of food. In those days I slept on a wood floor, no pillow, no blanket, shivering like a dog with rabies. Daily meals were four slices of bread and two cups of burnt-barley coffee.

But that's all behind and forgotten now. The cellar is piled to the ceiling with canned goods, and when the oil runs out, or becomes too expensive to buy, I have two huge oaks and a bunch of maples to see me through until St. Peter says, "Where's Smiley?" I'll never be hungry or sleep cold again, if I have to murder.

However, I have all the other symptoms of teacher burnout, and that causes a little concern. As the learned psychologist said, we also suffer "frequent minor complaints such as colds, dizziness, headaches, diarrhea, loss of appetite and loss of desire for sex." These are minor?

I've had 'em all, in varying degrees during this cruel winter. Not all at once, thank goodness. If I had, they might as well put me in a

green plastic bag and throw me into a snowdrift on one of the back concessions.

But, somehow, as department head, my colds are not as bad as my teachers' colds. My dizziness is just a slight buzzing in my ears when my wife talks a blue streak. Theirs makes them stagger from wall to wall and take six days off.

My headache is created by their constant absence. Their headaches are migraines, demanding three days off, with all the lights out, medication and tender loving care.

Diarrhea? Theirs, to hear them tell it, is ten times worse than any mere six or eight times a day. It's a hundred times worse than what I had in Normandy, 1944, when I had to be carried to the facilities. More days off.

Loss of appetite? Even though I gag over my breakfast of toast with peanut butter and half a banana, they think they've lost their appetite if they don't have juice, cereal, bacon and eggs and hot buttered toast with jam.

Loss of desire for sex? I have to have somebody explain to me what it means.

And all this is not because I am burned out, but because the teachers on my staff are. I think that what's done it is trying to keep up with their chief. They just can't do it, and they're breaking down and falling apart like a leaky old ship caught in a hurricane.

Item. One of my teachers has developed insomnia, not to mention chest pains and frequent bouts of "flu." Combine them and you have an eight-pound shadow desperately hanging on.

Item. Another veteran had an attack of angina, his second, and decided to call it quits. This meant a great shuffle of teachers and classes to fill his place.

Which was filled by a capable young woman who went to Florida for a holiday, after teaching a month, then contracted, ironically, pneumonia, and missed most of January.

Item. A young English teacher, in great physical shape, plays hockey, soccer, golf, has been plagued by 'flu and migraines, and totters in

practically weeping with self-pity, behind in his work, determined to move to B.C.

Item. A solid performer, male English teacher, never sick, got terrible "cramps" in his stomach, thought it was the 'flu, because that was one of the symptoms, still had a horrible soreness in his abdomen after the cramps, and wound up with a burst appendix -- three weeks off. The idiot.

Add to that the fact that, to preserve jobs for people, my

department contains one science teacher who swears he has never read a book, one art teacher whom I know hasn't, one family studies teacher, one teacher of Spanish, and various other dogbodies, and you know what I'm up against.

Supply teachers come to me on their knees, begging me to tell them what my missing teachers were doing when they went sick. The administration fondly (in the Shakespearean sense of fool-

ishly) believes that I know what every teachers was doing on fourth period last Friday, and can help out.

If you see an odd-looking piece of charcoal next summer when you are doing your barbecue, something that vaguely resembles the outline of a human, don't throw it in the flames and douse it with gasoline.

It might be me. Burnt-out. Still waiting for St. Peter to speak up or launch an investigation.

Bishop welcomed Sunday

On Sunday, March 1, Anglican clergy and laity from Peterborough, Victoria and Haliburton, and from Oshawa and Durham and Northumberland will gather to formally welcome the Right Reverend Desmond C. Hunt as Regional Bishop in the Region of the Trent-Durham of the Anglican Diocese of Toronto. Elected Suffragan (Assistant) Bishop in November and consecrated Bishop in January, Bishop Hunt will assume his duties as Regional Bishop on March 1.

Due to the size of the region there will be two services of welcome: the first at 3:00 p.m. at St. John's Church, Peterborough for the northern portion of the region and the second at 8:00 p.m. at St. George's Memorial Church, Oshawa.

The Most Reverend Lewis S. Garnsworthy, Archbishop of Toronto and Metropolitan of Ontario will present Bishop Hunt and lead the service of welcome. Archbishop Garnsworthy will also preach the sermon.

Participants in the service at St. John's Church, Peterborough will include the Venerable R. K. McKean, Archdeacon of Peterborough, and Canon G. E. Moffatt of Campbellford, who will be Chaplains to the Archbishop.

Chaplain to Bishop Hunt will be the Reverend K. E. Adams, Regional Dean of Peterborough and the Reverend R. G. Hartley, Regional Dean of Victoria and Haliburton. The scripture will be read by Mrs. Marion Woods, President of the Anglican Church Women of the Diocese of Peterborough. Mr. Dick King, a Lay Reader from the Deanery of Victoria and Haliburton, and the Reverend Richard McKnight, Assistant Curate in St. John's Church.

Assisting Bishop Hunt with

Communion will be several priests from the two deaneries: The Reverend Ron Scott of Apsley, the Reverend Byron Yates of Belmont, the Reverend A. D. Wainwright of the Parishes of Cavan and Manvers, the Reverend E. B. McCallum of Lakefield, the Deanery of Peterborough; the Reverend George Elliott of Minden, the Reverend E. L. Straker of Bobcaygeon, the Reverend T. C. Denny of Haliburton and the Reverend George Meades of Lindsay, for the Deanery of Victoria and Haliburton.

Last day for adding name is March 7

Voters list revision underway

Revision of voters lists for the 32nd Ontario general election will take place between February 23 and March 7.

In this two-week period, additions will be made to the preliminary lists of electors that were prepared following the door-to-door enumeration.

Returning Officers for the province's 125 electoral districts will consider such changes during their posted office hours.

Qualified voters who do not have Form 103 and whose names are not on the voters

list should contact their Returning Officers.

The last day for adding the name of a qualified voter to the polling list is March 7. Urban voters must have their names on the list if they are to be allowed to vote. Rural voters not on the list may still vote, provided they are identified and vouched for on polling day by another qualified voter who is on the list at that polling place.

Telephone numbers of Re-

turning Officers are carried in Elections Ontario advertisements that appear during the revision period in daily and weekly newspapers throughout the province.

To be qualified to vote in the general election, a person must be at least 18 years old on the day of voting, a Canadian citizen or British subject at the time of voting, and a resident of Ontario for at least 12 months prior to election day on March 19.

From the Chamber

by Bob Stinson

Call Toll Free

The Chamber has ordered a Toll Free (Inwats) phone number for the Welcome Centre. The service will come into effect in approximately two to three weeks and will mean that anyone in almost all of Ontario may call our Chamber office toll free by dialing 1-800-461-7677.

This additional service was being considered as part of the marketing plan for our next year, but the board of directors decided it was important enough to go ahead with right away. By so doing we will be able to publicize the availability of this feature on the promotional materials that are now at the printers and throughout our promotional activities at the Sportsman Show. The public will be encouraged in our advertising to use the number to check on the availability of accommodation, snow conditions, trail conditions, road and weather reports and for general inquiries.

Available to Members Too

This service is, of course, expensive and we have devised a method of recovering some of the cost while offering a very worthwhile service to our members. We are offering an opportunity to members to subscribe either on a six-month or year-round basis to make use of the toll free line. For a fee of their own, and have incoming calls received at the Chamber as a result connected directly through to them. It has been proven over and over again that advertising becomes far more effective when you can offer the public the advantage of calling at no charge -- without the embarrassment of calling collect.

A limited number of members can be accommodated with this service, so we urge any who are interested to contact the office immediately to make arrangements. In the meantime, may we suggest everyone make a note of the number, keep it by your phone, and when you receive a long distance call from someone who for any reason could be provided with further assistance by calling the Chamber give them the number. We'll take it from there.

So Much For Winter!

Throughout Ontario's resort areas we have been sailing along on the crest of what appeared to be

shaping up as the best winter we had experienced for years. Suddenly the weatherman has dealt us a very cruel blow from which it is certainly doubtful we may fully recover. The mild weather cancelled out many carnival events, ice races, and of course the snowmobiling and skiing. Many resort facilities that were booked solid sat empty last weekend and can look forward to even more cancellations unless things suddenly change again. To date the forecasts show little cause for optimism. Experience has also shown that once this prime time is lost we can't pick it up later even if the climate does turn to winter again in late March. It takes a lot of effort to try and convince city dwellers by then that we do still have winter activities available -- and many are then only thinking about spring and are no longer interested.

Since many of our members indicated that although February was booked heavily throughout the county there were many openings in March. For that reason we placed an advertisement in last week's Star Travel section explaining that we still had snow -- unfortunately by the time the ad appeared the snow was almost non-existent. Seemed like a good idea at the time!

Coming Soon

The "Snowdon Supporters" first annual Fun Day to celebrate the opening of their cross country ski trails will be held Sunday, March 1 and will feature snowshoeing, tobogganing, skating and of course skiing. Hot soup and coffee will be available. Festivities will take place at the proposed park site on Hwy. 519 between Gelert and the South Lake Road (weather permitting).

On Tuesday, March 3 St. George's Anglican Church in Haliburton are having a Pancake Supper from 5:00 to 7:00 p.m. Charges are only \$3.00 for adults and \$1.00 for children under 12 and everyone is welcome.

Summer Events

This week the Chamber office is submitting our list to the Ministry of Industry and Tourism of our summer events. Have you made sure that we have all the correct information about your club's activities? Let's make sure we get it right this time.

AH&M council holds meeting

At its most recent meeting, Anson, Hindon and Minden council considered the following:

Council agreed to transfer parts 4, 6, 7, 9 and 11 on plan 19R-2286 to the Provisional County of Haliburton for roads purposes and a proper deed will be prepared.

D. Blakey and J. Garbutt of the Curling Club and J. Pillsworth of the Agricultural Society were present regarding the cement block building. Everyone agreed that the municipality owned the building but the two respective groups were to negotiate on a suitable value. The municipality would act as an intermediary in the transfer of funds.

J.O. Jackson joined the above members of the curling club and several members of the Minden Recreational Committee were present. The club advised that their building would not be available to rent for possibly one year as a great deal of interior finishing was yet to be completed, however, their rental figure would be considerably higher than the arena rates and should not be defined as

being in competition with the recreation committee's facilities. It was decided that a rental policy be prepared and approved by both parties for future reference.

Doug Pritchard and Larry Cummins were appointed as liaison members to the Minden Curling Club executive for 1981.

Earl Kent was authorized to purchase a used 2,000 gallon tank from J. Rowlands for the sum of \$300.

One tender was received. The tender of the Township of Faraday in the amount of \$1,610 for one 1963 G.M.C. truck and tanker was accepted.

Deputy-reeve Pritchard declared an interest in cheque #5138 and councillor Cummins declared an interest in cheque #5169. Both refrained from voting thereon.

The following accounts were approved for payment. General \$22,185.66, and sewer \$22,771; and further the general accounts for the month of January were reduced by \$299.92 as cheque #5115 has been approved twice.

The P.W.D. accounts for the month of January were approved for payment in the amount of \$22,166.96.

Council completed a visual inspection of the street and exit signs on the by-pass and directed the clerk to notify M.T.C. of council's recommendations.

Council reviewed and accepted the inventories from the township departments. By-law 81-13, a by-law to authorize an agreement with William Simmerson with respect to the Scotch Line Landfill Site, was passed.

Council then went into committee of the whole to review the wages for 1981.

Thank You

We would like to express our heart felt appreciation to the residents of Haliburton County for the clothing, food, money and support that we have received since fire destroyed our home.

We could never thank each individual, church, fire dept., stores and organizations the way we would like to, so we feel we should thank the community as a whole.

We have learned that to receive is as fulfilling as to give and hope that some day WE can be of service to the community to aid in what every way we can to some one of you that is in need.

COUNTY ECHO SPORTS

The junior girls volleyball team from HHSS recently took the Kawartha championship, and will now advance to COSSA competition. Team members are Tara Davies, Kris Storey, Signe Tashlin, Marla Mac-

Naull, Kathy Mosgrove, Jenny Rendall, Mrs. Pizzey (coach). Front row, from l.: Shona Ross, Wendy Ballantyne, Wanda Blakey, Janice Emmerson, Tracey Thompson.

Junior team heads to COSSA after winning Kawartha 'A'

The efforts of the members of the Junior Girls Volleyball team from Haliburton Highlands Secondary School were rewarded last week when they won the Kawartha 'A' Championship.

The girls have been working hard since late last November and prepared to compete in the championship tournament by taking part in three exhibition tournaments. In these tournaments the team was able to defeat other teams from schools of comparable size ('A' schools) except for one defeat by Campbellford, and were very competitive with most of the larger ('AA') schools.

The Kawartha tournament was held in Norwood on February 17. In round-robin competition the Haliburton team first played two games against Millbrook, and won them by scores of 16-14 and 15-12. Then they faced Norwood and lost the first game 15-6 but came back to take the second 15-11. Their final match-up put them against Campbellford. They lost the first game 15-9, unable to break the rhythm of a strong server until it was too late to catch up. The second game was closer, but the girls came out on the short end of a 15-13 score. However, when round-robin play was complete, Haliburton was tied for second place with Millbrook, and as a result of their two wins over that school in round-robin play, they advanced to the best two out of three final against Campbellford.

To that point these two teams had faced each other in five games and Campbellford had won three of these matches. The determined Haliburton squad set the Campbellford team back on their heels when they fought

back from game point situations to finally take the first game 16-14. The second game was also a see-saw battle, but when Haliburton

reached a score of 15 points, Campbellford only had 13, and the girls had won the championship.

The team is now preparing

to compete at C.O.S.S.A. (Central Ontario Secondary School Athletics) which takes place on Tuesday, March 3 in Cloyne.

Team played in semi final

HHSES girls compete in floor hockey

by Roy Scott

A team of girls from Grades 4, 5, 6 and 7 of Haliburton Highlands Senior Elementary School travelled to Windsor to participate in the 8th annual Forest Glade Tournament. The girls left on Thursday at noon and arrived at Windsor and met their billets that evening at 8:00 p.m.

Tournament action began Friday with Haliburton play-

ing in Division B in a round robin series with Agincourt #11, Forest Glade #11 and Buchanan with the following results: Haliburton 4, Agincourt #11 2; Buchanan 8, Haliburton 3; and Haliburton 2, Forest Glade 1.

This put Haliburton in the runner-up position in their division and put them in a semi-final game against the winner of Division A. Haliburton went against Agin-

court's number one team. Agincourt, who won the tournament, proved the powerful as they defeated the Haliburton team 10 to 2.

Coaches Mr. Scott and Mr. Bailey congratulated the girls on their fine effort and good sportsmanship shown throughout the tournament. The girls enjoyed meeting new friends and sharing good times together. Among those who helped

make the trip possible were Mrs. Sheila Finlay, Jo Anne Bounsell, Mr. and Mrs. Bob Bannister and Mr. Bailey who provided their vehicles and time, and Curry Motors, which provided a courtesy car to help with the transportation.

The coaches also expressed their thanks to all the people who sponsored the girls in their skate-a-thon, making the tournament possible.

With two wins and a tie in their last three games, the Haliburton OMHA Midgets wrapped up their eight game round robin playoff series against Cannington and Millbrook Monday night.

They are now slated to meet MacTier in a best three out of five series. A win in that series would set the stage for the eastern Ontario final.

Last Wednesday the local team travelled to Cannington and came up with a win in a game that was marred by some chippy play, especially in the second and third periods.

Cannington got off the mark first, scoring what turned out to be the only goal of the first period at 7:03.

Haliburton came back to tie the game with 11:24 left to play in the second period when Scott Rae found the mesh on a solo effort. Cannington moved ahead on a power play with 5:16 remaining but Haliburton fought back, tying the score with 1:42 left in the period on a goal by Steve Smith, assisted by Rae.

The third period belonged to Haliburton, as they outplayed Cannington from the opening faceoff, and connected for four goals before play ended.

Haliburton's tie breaker came at the four minute mark off the stick of Dave Nicholls, who got a helping hand from Dean Curry and Rae.

Six minutes and 37 seconds

into the period, Curry found the mark, assisted by Smith. The goal proved to be the last of the period, giving Haliburton a relatively easy 6-2 win.

A total of 62 minutes in penalties were assessed in

the game, 30 minutes to Cannington and 32 minutes to Haliburton.

On Thursday, the local team was once again on the road, this time in Millbrook.

Haliburton took the lead late in the first period as Dean

Curry capitalized on a passing play from Dave Nicholls and Scott Mitchell.

Less than a minute into the second period, Haliburton stretched their lead to 2-0 as Curry once again teamed up

SNO 5 opening cancelled by weather

The complete collapse of snowmobile trails in the area brought about the reluctant decision to cancel the opening ceremonies for the Fenelon Falls to Pembroke trail - SNO 5.

With many sections of the route already awash with

flood water, and with no let-up of the current mild spell in sight, officials of the Ontario Federation of Snowmobile Clubs, and of local clubs and associations involved in the trail's development, agreed Sunday to put SNO 5 on the shelf until next

season. SNO 5 is the second through route developed this year in a series of provincial public trails being established throughout Ontario. First of the series, SNO 1, which runs from the Quebec border to Lake Huron was opened on

January 17. Four additional major routes, along with several connecting links, are at various stages of development. The O.F.S.C. is hopeful that all will be completed for next winter. When

Give the green light to a bright idea.

If your organization has a project worth doing this summer, Summer Canada '81 will help pay for students to help get it done.

If you're an organization with a singularly good idea that needs doing, remember that the closing date for applications for Summer Canada '81 is closing in. (March 16, 1981 to be exact.) If we don't have your application already, act now. We need it before we can give you the go-ahead. Or the wherewithal to get it going.

Let's talk dollars and sense.

The projects should be the kind you can really get into, with your heart and your head. Projects giving priority to parks, recreation and day camp services; health and social services; energy conservation; renewable resources and environment; tourism; artistic and cultural development would certainly make sense to us. And for projects accepted, we'll put up salary contributions equal to the provincial minimum wage. And up to \$35 overhead, per person, per week.

The Qualifiers.

The projects must be non-profit. The benefits should be long term. To the students. And to the community. The project must provide at least three jobs for students. For six weeks to 18 weeks. From May to September. And keep in mind that Federal Government employment policies support plans which give equal opportunity to all Canadians, including the young, women, Natives and the disabled.

A few words about closing dates.

We really want to hear your good ideas. But we've got to hear soon. Proposals must be post-marked by March 16 so get the application form now, if you haven't already. From your Canada Employment Centre, or Employment Development Office. And give the green light to some get-up-and-go.

Uxbridge wins tournament, Oshawa consolation winners

A team of teachers from Uxbridge took home championship honours in the fifth annual Haliburton Chalkdusters hockey tournament over the weekend.

The Uxbridge squad topped 15 other teams to take the overall victory in the three-day tournament.

On the consolation side, a team from Oshawa were the

eventual winners.

The tournament got underway Friday night with three games. In the opening match-up, the Haliburton high school Chalkdusters dropped

a 4 - 3 decision to the Peterborough Oldtimers. Game 2 saw the Perth teachers edge out the Muskoka Oldtimers 8 - 7, in a shootout, and in game 3, the local Bishop and Wilson team defeated the Haliburton elementary school Chalkdusters 6 - 2.

Action resumed Saturday morning as the York Rangers met Napanee and won 4 - 3. Oakville Trafalgar secondary school took Lakefield secondary school 3 - 2 in the second game of the day. In other games Saturday, Lindsay teachers beat the Aurora Nightmares 6 - 2. Uxbridge teachers took Oshawa teachers 4 - 1. Belleville teachers got by Bendale secondary school 2 - 0. Muskoka Oldtimers edged out the Haliburton high school 'dusters 3 - 1. Peterborough Oldtimers took Perth teachers 5 - 2. Napanee high school defeated Lakefield 5 - 0. Oakville Trafalgar hammered the York Rangers 6 - 1. Oshawa shut out Aurora 6 - 0. Uxbridge dominated Lindsay 7 - 2. Bendale got by the elementary school 'dusters 3 - 0, and the Belleville teachers defeated Bishop and Wilson 5 - 2.

On Sunday Muskoka eliminated Napanee 3 - 2. Peterborough took Oakville Trafalgar 2 - 1. Oshawa defeated Bendale 5 - 3, and Uxbridge took Belleville 7 - 4.

In the consolation championship, Oshawa overwhelmed Muskoka 4 - 0, and in the championship game, Uxbridge dominated Peterborough 5 - 0.

The consolation and championship winners received keeper trophies, while Uxbridge was awarded the tournament trophy, which will remain on display at the Dysart arena.

Rounding out the tournament was a dance Saturday night at the Dysart arena at which players and friends got a chance to unwind from the pressures of friendly competition.

Opening of SNO 5 cancelled

from page 6
in place, the public trail grid will provide easy access by snowmobile to all tourist regions and popular snowmobiling areas of the province. SNO 5 is seen as a super highway for snowmobilers to and through the Highlands of Haliburton. It will be augmented by alternate routes from the Kawarthas and

Hastings as well as Parry Sound and Muskoka. Unfortunately, the weatherman wins! The official opening of SNO 5, scheduled for February 28, must be postponed. It is now tentatively re-scheduled for mid-December, 1981, so that its attendant publicity will be a boost to the region during the Christmas vacation period.

The Newmarket rink of Barry Whittaker, skip; Deanna Whittaker, vice; Ted Burbidge, second; and Elaine Burbidge, lead, took top honours in the Hiram Walker mixed bonspiel over the weekend.

Newmarket rink wins spiel

The Newmarket rink of Barrie Whittaker, skip; Deanna Whittaker, vice; Ted Burbidge, second; and Elaine Burbidge, lead, were the overall winners at the Hiram Walker Mixed Bonspiel in Haliburton over the weekend.

The Whittaker rink had the highest point total in three wins during the three-day spiel. Rink with the second highest point total after three wins was skipped by Scott LaRue of Haliburton, with Emily LaRue, vice; Jim Scheffee, second, and Arlene Scheffee, lead.

Third highest point total among the three game winners went to a rink skipped by Bob Colliver of Haliburton.

Prizes were also awarded to the highest two game and one game winners in the three draws.

Midgets take two wins and one tie

from page 6
with Nicholls on a scoring drive.

Neither team was effective around the net for the rest of the period.

In the third frame, Millbrook began to put together some scoring punch, while Haliburton had a hard time defending their lead.

Only eight seconds into the final period, Millbrook got on the board, and some four minutes later, they again connected on a passing play to beat Haliburton's defense and goal keeper Tim Deremo.

Five minutes and 40 seconds into the period, Millbrook teamed up on a three-man passing play to take the lead.

The advantage held up as the clock wound down, and it looked like Haliburton would end up on the losing side. But with just 37 seconds remaining, Curry teamed up with Mitchell to even the score and salvage a single point to add to Haliburton's other series wins.

Monday the local team played host to Cannington, and once again it proved to be an easy match, as Haliburton coasted to a 6 - 3 win.

Atoms win three, tie 1 in series play

Haliburton's OMHA Atoms looked like potential winners in the first week of their round robin home and home series, as they picked up three wins and a tie.

In the first game Haliburton managed to tie Beaverton 1 - 1 after a quick goal in the third period to even the score at home last Tuesday.

Beaverton's fast moving players stole the puck on Haliburton's power play and slammed it into the net, unassisted, in the first period.

The visitors held the lead into the third period with Jaro Cooper, assisted by Dean Brownson and Erin Nicholls, out-manoeuvred Beaverton's net minder.

While both teams racked up six minutes in penalties, Beaverton was handed a bench penalty.

The tie game was just a stepping stone for Haliburton as the players warmed up for a big win over Millbrook two nights later.

Millbrook was quick off the face-off with the team's first and only goal scored at 9:09.

Haliburton answered that goal at 3:51 as Colin Hunter came down the ice alone to put a marker past the goalie on a power play. With the adrenalin pumping, Haliburton scored again at 2:05 on a combination shot from Darren Byers with the help of Jeff Warburton and Philip Johnston.

But the team wasn't finished for the period yet, as Cooper scored from Nicholls, and Brownson with only 37 seconds remaining.

Both teams were kept at

bay for the remaining two periods.

Final score was Haliburton 3, Millbrook 1.

The Haliburton boys kept taking it all in stride as they defeated Newcastle, 4 - 1 on Saturday.

Both teams were playing high-calibre hockey in the first period with the goal keepers minding the nets well and the penalty boxes empty.

Finally Haliburton put the first mark up on the scoreboard at 7:34 in the second period on a lone shot from Cooper.

Nicholls and Ben Packard teamed up at the two minute

Cont'd. page 8

Cross Country Ski tour cancelled

The annual Haliburton Highlands cross country ski tour, sponsored by the cross country club and the Lake Kawagawigamog tourist association, which was to have been held this Saturday, has been cancelled. Mild weather conditions have played havoc with the trail system, and no significant change in conditions is expected before the weekend.

The tour, which attracts participants from many parts of the province, is unlikely to be rescheduled for a later day due to weather conditions.

The captain of the Uxbridge team receives the Chalkduster trophy from tournament official Gary Brohman Sunday afternoon after Uxbridge took the overall championship of the fifth annual Chalkduster tournament, which was held in conjunction with the Haliburton winter carnival.

Tournament official Roy Scott presents the consolation trophy to the captain of the Oshawa team in ceremonies which followed the consolation final of the three-day Chalkduster tournament Sunday.

Wednesday afternoon bowling scores

Scores 200 and over for the Wednesday afternoon mixed league last week were Linda Morrison, 238, 309, 212; Lillian Gorveatt, 215; Gordon Bennett, 218, 231; Kay Barry, 220, 223; Jackie Banks, 231; Flo Henderson, 209; Ev Per-

rin, 207; Joan McKay, 253, 228; Harold Kirpatrick, 203; Harry Henderson, 259; Garth

Henderson, 245, 278; E. Stata, 258, 255, 215; Frieda Handy, 208.

Remember Ontario Tax Credits at tax filing time.

Find out how you qualify:

If you're an Ontario resident under 65, you may qualify for one or more of three Ontario Tax Credits, even if you have no taxable income.

To claim the credits you must complete the mauve Ontario Tax Credit form and mail it together with your federal income tax return.

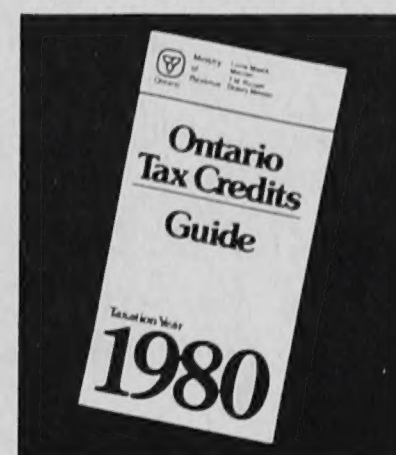

A reminder: Fill it in and mail it - Ontario Tax Credits are for you.

Property Tax Credit

The Property Tax Credit reduces the burden of municipal and school taxes. It is based on your property tax or rent and taxable income.

Sales Tax Credit

This credit returns a portion of money paid in provincial retail sales tax. It is based on personal exemptions and taxable income. The maximum amount that may be claimed for Property and Sales Tax Credits is \$500.

Political Contribution Tax Credit

This credit may be claimed by Ontario residents who contributed to a registered Ontario political party, constituency association or candidate in an Ontario provincial election.

This claim applies if your provincial tax payable is more than your Property and Sales Tax Credits.

The maximum Political Contribution Tax Credit that may be claimed is \$500.

Attention Senior Citizens!

The Ontario Tax Grants introduced in 1980 replace Ontario Property and Sales Tax Credits for residents who were 65 years or older as of December 31, 1980. If you are filing a federal income tax return, you should not complete the Ontario Tax Credit form unless you are claiming the Political Contribution Tax Credit.

Nursing Home Residents

Residents in nursing homes and similar institutions are not usually eligible to claim the Property Tax Credit or the Property Tax Grant.

For more information or copies of the Ontario Tax Credit Guide, call the Ministry of Revenue's toll-free Information Centre:

• In Metro Toronto - dial 965-8470
• In Area Code 807 - ask the Operator for Zenith 8-2000
• In all other areas - dial 1-800-268-7121

Along the trails

by Roy Bates

Through Rose Coloured Glasses

The early history of the sport of snowmobiling might be best forgotten. That was the period when stories of wildlife harassment, fence-cutting and the like gave snowmobilers an unsavoury image that has taken years to be cleaned up. Our act has been cleaned up and we've enjoyed a period of relative quiet. But just when the future begins to take on a rosy hue, the weeds creep in and threaten to disrupt the garden.

What kind of persons would deliberately litter an on-trail picnic site and even use a brand new toilet for kindling wood? They do not belong in the fraternity of snowmobilers. Our sport can well do without, thank you, the type of hell-raisers who gave us the earlier bad name!

While we may hope that last week's vandalism at the Black River crossing is an isolated incident, it is clearly time to take off the rose-coloured glasses. There are still some bad apples in the barrel, perhaps coming in with the new crop attracted by the promotional campaign which attended this year's public trail development.

Snowmobiling is now accepted as a respectable family recreation. Tighter regulations and better policing had taken the excitement out of it for the thrill-seeking crowd. If we have unwittingly enticed them back, we had better be prepared to meet them on the trails with sufficient authority to make it clear that we will not stand for this kind of foolishness. Let us keep our sport respectable. The future of snowmobiling depends upon us.

Where Did Winter Go?

When I walk down the street I am greeted with, "Great weather, isn't it?" It is, if you're not a snowmobiler. Can't argue that! After suffering through two months or more of intense cold, a week or two of mild weather is more than welcome. But does it have to go to extremes? Who expects spring to come in the middle of February? The effect of the mild weather on snowmobile trails is little short of disastrous. Normally in a mild spell,

there would be some frost at night to keep the trail base relatively firm. Water from daytime melting would run off or soak away harmlessly. Some surface deterioration could be expected. But last week's high temperatures, with frequent rain showers and fog, may well have wrought near-total trail destruction. Creeks were opening up, ponds were awash with slush, and low-lying swamps and marshes were filling up with the run-off.

Just how seriously the trails are affected was not fully known at time of writing. An evaluation will be made after the thaw has ended. If

cooler weather is not too long in coming, and if a few inches of new snow comes with it, there is a good chance that most trails will give us a few more weeks of riding. It is much too early to believe that spring is here to stay!

As trails deteriorate, many snowmobilers traditionally turn to the lakes and portages for their late winter riding. Just a word of caution. Be wary of inlets and outlets, of narrow and shallow, any place where the increased flow of warmer water may be eroding the ice from underneath. We've heard few reports of fatalities this winter. Let's not spoil the season with a rash of drownings!

Galway Cavendish meet for February

At the February meeting of Galway/Cavendish council, the following matters were considered:

Council is prepared to support an application for severance of part Lot 33, Concession 18, Galway by Dr. Kassay and Mr. Russell, subject to rezoning of the severed portion from RU to RR. Section 29, subsection 4, of the Planning Act shall be applied to the severed lot and the frontage on the retained lot will be a minimum of 300 feet on the unopened road allowance.

The progress report for the construction of the Cavendish Fire Hall and the Cavendish Volunteer Firemen's building committee of February 9 and 14 respectively be adopted as presented.

By-law 81-7, a by-law to govern the proceedings of council and committees, was passed.

Severance B-12-81 (Palla, Concession 11, part Lot 26, Galway) was supported as it conforms to the North Kawartha Official Plan and Zoning By-law 78-43.

The Steam Jenny purchased by the road superintendent was authorized by council subject to the approval of Ministry of Transportation and Communications.

The road superintendent was authorized to attend the Good Roads Seminar in Toronto, February 22 to 25, 1981 and the Registration Fee and all out of pocket expenses will be paid by the municipality.

The clerk-treasurer was authorized to attend meetings during 1981 for the Association of Municipal Clerks and Treasurers of Ontario and out of pocket expenses will be reimbursed to the clerk-treasurer by the municipality for all such meetings.

The North Kawartha Planning Board was requested to consider a general amendment to Sections 1.51.1 and 1.52.1 of the Official Plan specifically stating that a centre severance of a piece of land is prohibited e.g. one severance application creating three lots.

The clerk was authorized to appeal the assessment on the following properties as the Provincial Assessor erred by using the Residential Factor rather than the Commercial Factor to arrive at the assessment on which mill rates will be applied. The properties are: Crystal Pier Marina, Culligan Water Softeners (Haugen), Crowe's Nest, Little Gull Marina, Baldwin Bay Marina, Catchacoma Holdings.

A resolution from the Regional Municipality of Hamilton-Wentworth was tabled.

A resolution from the Town of Dunnville was tabled.

Tenders covering materials for the Cavendish fire hall were opened at 5:04 p.m. Tenders were received from the following: Jermyn Lumber, Bobcaygeon; Canadian Lumber, Kinmount; Hunter Lumber, Gooderham; Kingston Lumber, Lakefield; and John Stupavsky, Buckhorn.

The tender from John Stupavsky for the Cavendish Fire Hall covering items 16 and 18 (175 feet of 2 X 6 spruce and 2016 feet of 1 X 6 rough hemlock) was accepted.

The submission from Canadian Lumber for the materials for the Cavendish Fire Hall with the exception of items 16 and 18 was accepted.

score again for the visitors. Only 30 seconds later, Nicholls scored again on a shot from Cooper and Drew Mitchell.

Moving into the second frame Haliburton took a four point lead with Warburton scoring from Byers and Johnston.

Finally, Beaverton answered one of the goals with only 16 seconds left to play in the period.

But Haliburton quickly took a four-point spread at the 9:03 mark in the third period with Nicholls making his hat trick complete, unassisted.

Haliburton ended its scoring spree at 3:55 with Perrin making the goal with the help of Warburton.

Haliburton's boys spent eight minutes in the penalty box while Beaverton only accumulated one penalty.

The round robin play-off series is continuing.

Atoms round robin series features strong games

from page 7

mark to give the Haliburton team a two-point lead.

At 4:52 in the third period, Haliburton chalked up its third unanswered goal as Nicholls scored unassisted.

With only 47 seconds remaining Newcastle saved itself from being blanked as it managed to squeak the puck past Haliburton's netminder, Gavin McKnight. But the game was not over yet as the Haliburton team couldn't let the goal go unanswered with Cooper and Nicholls scoring seven seconds later.

In its last game of the week, Haliburton didn't take it easy on Beaverton as they downed the hometown 6-1.

Haliburton started racking up its points at 6:10 in the first period with Ron Perrin scoring unassisted. At the 1:44 mark Nicholls recruited Cooper and Warburton to

HEART DISEASE & STROKE

"February is Heart Month in HALIBURTON County"

Help your heart fund Help your heart!

When you're a florist, good form starts from the ground up. Ask Lynn.

She fills out the UI Record of Employment perfectly every time an employee parts company.

When you're in good company, stay in good form. Lynn is in charge of personnel and finance for a local florist. And she knows that one of her responsibilities is to fill out a UI Record of Employment form every time an employee has an interruption in earnings. She knows that if she doesn't get it right the first time, she may have to do it again. So Lynn took the time to get the booklet "How to Complete the Record of Employment" from her nearby Canada Employment Centre.

Leaving in good form. The Record of Employment is one way we can make sure no one gets short-changed and no one gets overpaid. This saves time and money for everyone involved. Lynn found out that the most common mistake is in reporting the "Insurable Earnings". Insurable earnings are not necessarily the same as payroll earnings. Because Lynn fills out the ROE accurately, ex-employees don't have to come back to her for changes. And neither do we.

It's just good business to be in good form. At Unemployment Insurance, we process about 4,000,000 Records of Employment every year. Last year, employer mistakes in filling out the form cost at least \$125,000,000 in overpayments. Plus the cost of recovering those overpayments and penalizing or prosecuting.

We're out to cut down that \$125,000,000. And we're going to do it, together.

Employment and Immigration Canada

The Scoresheet

Minden Atoms picked up only one goal in Sunderland last Tuesday. Scoring the visiting team's lone goal was Scott Russell on a well-aimed pass from David Preston.

The final score was Sunderland 5, Minden 1. Russell was again the solo scorer for Minden when they met Orono in Minden. Russell scored the first goal of the game, unassisted but Orono matched it to even the score.

The final score was 1-1. The Atoms travelled to Bobcaygeon Friday night only to be shut out 4-0.

In the next match, Minden couldn't hold the strong Orono team down again as they walked away with a three-point spread.

The netminders were in top form in the first period with both teams remaining scoreless. Orono was quick off the mark finally scoring in the second period.

In the third period, Orono took a two-point lead by scoring short-handed. The team followed up with another goal but this time it was answered by Russell, assisted by Derek Allison. Orono wound up its scoring with one more power play goal.

Darrell Walker played an excellent game in goal for Minden.

Minden Pee Wees were blanked by Orono although the team played a strong game until the final five minutes.

In the first and second period the netminders kept the puck out of the mesh but Orono finally got a marker on the scoreboard early in the third period.

Although the Minden team might have tied the game the boys weren't given a chance as Orono pummelled three more goals into Minden net in the last five minutes of the game.

Orono again shutout the Pee Wees on their home ice on Thursday.

With shots seemingly coming at the goal from every direction, Andrew Burk played well to only let three past his stick.

Minden Bantams had a fairly chippy game against Bobcaygeon on Thursday with a total of 40 minutes in penalties and two-game misconducts doled out to the team. Minden accumulated 21 minutes in penalties and a game misconduct while Bobcaygeon racked up 19 minutes in penalties and also a game misconduct.

In the first period, Bobcaygeon scored twice and marked up another pair in the second frame.

In the third period, Bobcaygeon scored twice more to take a six-point lead. When it looked like Minden might be kept off the scoreboard, John Dillon scored from Scott Yake and Greg Newell with 1:22 left to play.

Final score was Bobcaygeon 6-1 over Minden. In Orono on Saturday, the home team devastated Minden 12-3.

In the second period Jeff Howe scored on a combination shot from Dillon and Scott Hamilton.

In the period, Newell scored from Yake and Hamilton made a goal with the help of Howe.

Orono took another sweep at Minden again on Sunday.

In the first period Hamilton put Minden on the scoreboard on a shorthanded goal assisted by Jeff Stamp.

But Orono took advantage of the next power play and followed it with another goal while both teams were shorthanded. The visitors' final goal of the period came on another short-handed attempt with Minden's man sitting in the penalty box.

In the second period Hamilton scored unassisted only 47 seconds into the play. But Orono answered the goal with two more resounding shots.

In the third period Orono widened its lead to a five-point spread with two successful shots.

John Dillon finally managed to break through the Orono line and make a winning shot for Minden. Inspired, Rob MacLeod followed form on a pass from Doug Schell only 16 seconds later.

But Orono was not to be stopped as they wound down with two more goals in the last minute of play.

Final score was Orono 9, Minden 4.

Minden Midgets played fast and exciting hockey against Orono in the Minden arena although the home town boys couldn't manage to get on the scoreboard.

With no scoring in the first period, Orono took advantage of their power play to slam in the first goal of the game.

In the third period, Orono widened its lead to two points and wound out the scoring with a final shot into Minden's empty net.

Final score 3-0 for Orono.

Midgets came close to a win in Bobcaygeon on Thursday but came up one goal short of a tie.

Racking up Minden's goals were Eldon Bull from Wood and Andrew Pristol, Pristol assisted by Bull and Edge and Ivan Ingram picked up a point on a shot from Bull.

Minden Juveniles lost two games to Thornton in consecutive games last week.

At home on Friday Thornton took the first game in the best three of five series. Scoring for Minden were Rick Beene, Warren Mann and Ed Davis. Final score Thornton 9-3 over Minden.

In a return game in Thornton the following evening, the home team won 3-1.

With no scoring in the first period, Thornton was quick to sink the puck into the mesh in the second period.

Minden tied the score with a shot from Kevin Shapiera assisted by Craig Cowan and Les Booth. But Thornton wouldn't settle for a tie as they pushed two markers past the Minden goalie in the third period.

Looking through the pages of this newspaper we are struck by the kindness, generosity and compassion of many of our local folk who make this the kind of community that is so well thought of. Even first time visitors attest to the charm, warmth and hospitality of the Haliburton Highlands. The care and consideration extended by all our folk can be seen in the way we respond to our neighbours' needs. Our sick, we visit and comfort; for a community or personal need we dip into purse or pocket. These occasions bring out our ability, ingenuity, cooperation and dedication to meet that need or complete that project regardless of obstacles, disagreements or hardships. Many good things can be said of our community and the attempt we make to ensure the common good for all regardless of their financial, physical or mental condition.

However, while we are concerned with daily living and improving standards in this area, one class of persons is being forgotten. I talk of the yet unborn infant. Since 1972 the abortion count in our country shows that over half a million persons have been destroyed. If you take the total of all lives lost in Canada in 30 years by drownings and road accidents combined with all who died in the Boer, First, Second and Korean Wars, you still have much less than all the abortions committed in only 8 years. Think about it. We hope by this and similar columns over the next few weeks, to show why all members of our community should be informed and concerned about the far reaching implications of abortion, infanticide and euthanasia. Please keep an open mind and heart.

On the last weekend in March you can view a film series entitled, "Whatever Happened To The Human Race?" to be shown at the high school. After this presentation there will be a panel composed of professional people to answer questions on these issues. They are not obliged to divulge their personal opinions but are assembled only to answer questions relating to their professional background.

Please feel free to come and ask questions. Make yourself informed of the facts. What direction is our government taking in regards to our human rights? These issues affect not only our own community today but that of our children in the years ahead. These issues concern you!

Senior League by Linda English

The week started with fun and fitness on Monday morning. Our residents enjoyed an hour of exercising their bodies to music and playing games. We begin each day except Tuesday with this program keeping our bodies and minds active. Later in the afternoon, the ladies began quilting on their quilt. They are doing a beautiful job of it. Several residents went to

the auditorium for the movies. These Stones Remain was filmed in Ireland. We saw the significance of the rocks there. The formation of the rocks is an art left as a result of the stone age.

Forests Forever told us how forest fires clean out the old growth to make way for the new. We learned also the importance of forests and for

the Ministry of Environment reforest and harvest them. Many Canadians are dependent upon the wood industry for their livelihood. There was also some very nice wildlife scenes in this film.

Quebec Bonjour told the

Cont'd. page 14

Extendicare News

by Dr. W.O. Anderson

This thaw is hard to believe coming so soon. We are still in mid-winter but all of us should take it with a smile and a chuckle. Spring does not start until March 21, so expect some cold weather and even much more snow but not to last. Our daily walks are nice unless we have to dress too warm and snug.

The great debate is on in Ottawa whether men and women are equal, and yet if we look at it as master and slave, all will agree that the men all down history have been the obedient slave to provide for the home. Because this requires much ingenuity and wits, a horse trader if you will and even resorting at times to skulduggery, men can be slaves with keen cleverness. The woman's place is in the home, but if hubby cannot scrounge enough it is only fair that the fair lady helps. We have covered a difficult subject in a few lines but Ottawa insists on having hundreds and hundreds of pages without saying more. It is easier now than when we were a child, mother would consider it her duty to cook on a wood stove, wash the dishes without running hot water, clean the lamps; there was no electricity; house clean without a vacuum cleaner, make the butter and bake the bread and pastry, make the beds and do the laundry and yet she was the boss. Nothing she did made income but it had to be done. As an aside the beds were interesting in that they were of feathers, chicken, or geese or ducks' and in the fall maybe partridge to make feather ticks as we called them (not mattresses) and pillows and were they soft and cuddly. Added to that long list were the added duties of nurturing the offspring, the children, the doing of which was done very well in the first decade.

Tuesday morning, June Devolin conducted Bible study, the theme of which varied from plan in that instead of pursuing the study of the fruits of the Holy Spirit she discussed the phenomenon of prayer in which a human puts themselves in communication with their Almighty maker. Christians are exhorted to pray constantly and in everything to give thanks and if we have faith it will be done. An added treat was to see Nancy Picard who came with June to help her old crony and to give us a session of sacred music before leaving.

In the afternoon was bingo with Bernice Ross as the lone volunteer helper. Ray Smith alternated with Allan Macklin in calling. Betty Morrow arrived half-way along on another matter and when she saw the fun in helping she stayed until the game was finished. It was a good game. Betty Morrow brought us a real nice supply of peat pots to use in culturing some of the seedlings. The seed is

planted in a peat pot and stays until it is ready to be planted outside, then planted pot and all. The pot being peat moss becomes incorporated into the soil, even enhances it. No transplanting is needed, and the developing seedling is undisturbed.

Pollution is the big word today and to show how sneaky it is at times we refer back to the feather pillows. Allergy was scarcely heard then but now no one wants a feather pillow because in some way it often emits an allergen, an item that has no known dimension (certainly not bacterial) and yet can trigger the most calamitous disturbance to breathing, and the list of items producing allergens is growing steadily. Motor vehicle exhausts, stacks of industry, all chimneys in the

Guild News by Carole McLean

Although the weather for our Winter Carnival weekend seemed to have forsaken us, it had no ill effects on the participants, as the spirit of Winter Carnival was much in evidence in the crowds that attended all the carnival functions around town.

Our own Winter Carnival sale at the Rails' End Gallery was an astounding success. Debbie Bates informed me that things became so hectic on Saturday, extra staff had to be brought in. To all the volunteers who gave so freely of their time and services to make this our annual Winter Carnival sale a success, our deepest appreciation -- It is this dedication and willingness to help that has made our Guild and Gallery the success that it is -- Guild members -- "Stand up and take a bow."

For those who participated in the many events throughout carnival weekend -- you still have a chance to view the show and perhaps purchase that special gift for a loved

one as the show will continue throughout the week. So don't miss it!

Car Sink Draw
Well, it's on the ice! So get those tickets now. The way the weather has been these past two weeks who knows how long the ice will last, so make your guess and become the lucky winner of our 50/50 draw.

Ontario Crafts Council Central Regional Show
This year's Central Regional Show is now getting underway. For entrants the closing date is April 21, 22. If you are interested contact Debbie Bates at the Gallery or write Barbara Morrow, Kettby, Ontario, or phone Barbara at (416) 727-2978. This year's Ontario Crafts Council Conference and show will be held at Harbour Front on May 1, 2, 3, 1981 - So don't miss it.

Summer Exhibition and Sale
We hardly are through with one and it's time to start thinking about another show

HUNTING MOOSE IN ZONE 23 OR 31 THIS FALL?

You'll need a special stamp

Again this year the numbers of moose hunters in two hunting zones will be limited. The hunters in Zone 23 near Hearst and Kapuskasing, and Zone 31 near Chapleau will be selected by computer.

If you wish to participate, please contact a Ministry of Natural Resources' District Office nearest you for an application.

Applications must be postmarked no later than March 20, 1981. The selection process will begin March 27, 1981 and applications received after that date will be ineligible. Only residents of Ontario may apply.

The computer draw will be held in Toronto and successful applicants will be notified by mail.

For further information, contact your local District Office.

DISTRICT NEWS

Dorset News by Phyllis Briscoe

Intended for last week - "Wisdom enables one to be thrifty without being stingy, and generous without being wasteful."

We have had in-put from several areas regarding the blue jays from people who read about them in the Dorset news. As well as the lady from Parry Sound, a gentleman from Gooderham phoned to say that he had fed the birds cracked corn and they just didn't come back, so he wondered if we had gotten hold of some treated seed. I don't feel this is the case as we mostly buy sunflower seed that is for bird feeding, or mixed bird seed. A lady from Norland wrote that Gordon Sinclair had said on his noon broadcast a few weeks ago, that he had had a phone call from a man in Brampton warning people not to feed the birds soft, doughy bread. They had had birds dying in that area and on examination (autopsy) they found the crop filled with frozen bread and decided that had been the cause of death. So have more theories on the problem. This lady also tells us that they have seen a lone whistling swan in the Gull Lake area near Minden, which is very interesting. Apparently they are beautiful birds and rare.

We are always happy to learn that the Dorset news is read in various parts of the province and delighted to hear from readers. We would like to extend congratulations to Walter and Rhoda Taylor of Paint Lake Road, who celebrated their 52nd wedding anniversary last Thursday, February 12. Due to the high cost of heating oil it has been decided to close the Dorset Anglican church for the duration of the winter. Services will be held at the rectory, which has to be heated anyway, and will still be at 10:30 a.m. The Lenten services will begin on Ash Wednesday, March 4 at the rectory at 7:30 a.m. and will be held each Wednesday morning at the same time during Lent.

There are numerous snow-machine enthusiasts around these days. Use them in groups of various sizes up to 15 machines. It is so pleasant to see their lights coming across the lake at dusk of a dozen or more snowmachines and conjure up ideas of where they have been and what exciting things they have been doing. A delightful dinner party at one of our well-known dining rooms or maybe cooking chili or beef stew over a camp fire. Having fun, I'm sure, whatever.

I understand that the cross country ski trails at the Frost Centre on Highway 35 are in excellent condition and being enjoyed by a number of skiers. These trails are not

designed for fun skiing only, but are built and maintained to gain access to the various types of trees for teaching purposes. However, the trails are available to the tax paying public and numerous groups come from as far away as Toronto by bus for a few hours of skiing on well groomed trails. We wonder how many local people are aware of or take advantage of

Cobocconk News

by Shiela Lake

It's been a week of wide weather conditions. From very stormy weather on Tuesday and Wednesday to much milder weather with rain and melting snow and springlike floods in some areas. Green areas of some lawns are in view and although green grass is premature for February, let's hope we have an early spring!

On Wednesday afternoon, mother and I attended the funeral of the late Grant Harrison of Queensville. Grant was 22 years old, married, with two little girls. He, and a 19 year old Aurora man, a passenger in his car were instantly killed when their little Mazda car was flattened when it came in contact with a van. The accident happened Saturday night, February 14 around 7 p.m. as Grant was returning home from Toronto from his job. An experienced driver of tractor-trailer trucks, he made a turn to miss hitting a car that had suddenly decided to turn left at the Gamble side road at Richmond Hill. The Harrison car hit a patch of ice, and slid into the path of a southbound van. No one had a chance to avoid the accident. The funeral was held from the funeral home in Mount Albert with interment at Mount Albert Cemetery. Grant's father, the late Earl Harrison is known in the Victoria Road area as he pastured his cattle there for years.

More of the local residents are vacationing in the sunny south. Names later. Rev. Joe Moore of Toronto was the guest speaker at Faith Tabernacle on Tuesday, Wednesday and Thursday last week. The Legion bingo had to be cancelled on Thursday night because of very heavy fog. Sorry to learn Marion Newman on the Kinnmount highway, one of our ladies lodge

Chatting with Irene

by Irene Moore

Where is that country we used to know? In the Canada of yesterday you paid your debts as quickly as possible, and went without things to do so. You disciplined your children -- but disciplined yourself first. You spent less than you earned, and demanded your government to do the same. You went to church, your children to Sunday school -- and no court would have dared to interpose any law into your private religion. You would have been horrified at (and quick to change) men in high places who made "deals". You expected to prosper only by

doing a better and better job, and not by strikes legal or illegal every year.

You obeyed the law -- but took an active enough part in government to see that the laws were just for all. You "walked softly but carried a big stick". That was the character which brought this great country of ours back to normal from wars and depression. Is there enough of it left to do it again? Just remember Canada is the second largest country in the world and it is up to all of us to make it one of the "great-est".

Birthdays at Hyland Crest

Home for the month of March are -- Alfred Richardson, 2nd; Bruce Sims, 5th; Ralph Daniel, 14th; Violet Young, 16th; Pearl Bowron, 21st; Francis Krick, 21st; Catherine Teasdale, 25th.

While still on birthdays our birthday wishes to Mrs. Laura Harrison, RR2, Minden, who will be 80 years young on March 1.

Mr. and Mrs. Lyman Cox, Mr. and Mrs. Ken Cox and Christina visited with the Basil Cox's at Bancroft Sunday and attended the figure skating carnival.

Next Tuesday, March 3 is pancake day and the ladies of St. Paul's Anglican Church are holding a pancake lunch at the Parish Hall. Keep that date open and enjoy a lunch of soup, sausage and pancakes all for \$3.00, children 12 and under, \$1.50. Don't forget that the time is from 11:30 a.m. to 1:30 p.m.

Pearl Dobbs and Samantha of Toronto spent the weekend with Mr. and Mrs. Bill Beers. Did you know that migraine headaches could be caused by too much of any of the following -- salt, chocolate, orange juice, peanuts, peanut butter or even weather changes.

Mr. and Mrs. Alan Brydson and Lesley Ann of Bracebridge visited with Mr. and Mrs. Earl Bird on the weekend and Saturday afternoon they all came down to Bill Moore's for supper. They

brought the complete supper with them.

Bananas can be frozen. If your bananas are getting too ripe, mash them and put them in air-tight containers and freeze until ready to make your loaf or cake.

Mr. and Mrs. Clare Brown visited with their uncle in Windsor for a week recently. Winner of the 2nd chance draw at Mae's last week was Mrs. Ross Walker.

The Minden and District Horticultural Society will open their 1981 season with their general meeting at the municipal building on Tuesday, March 3 starting at 7:30 p.m. It is hoped for a good attendance to help with ideas and plans for the year. Everyone is welcome.

Shelley Russell of Whitby and Dan Trivick of Oshawa visited with Dana Hughes on the weekend.

Next Friday, March 6 is World Day of Prayer to be held at Hyland Crest Home at 2 p.m.

We were all sorry to hear of the accident that happened to Rick Osinchuck recently but hear he is well on the road to recovery.

Mini card party winners last Thursday afternoon were for cribbage with a perfect score - Luther Wilson and Ruth Kellett. Euchre - lone hands, Pearl Cowen; Betty Harpur and Mary McKelvey. Mike Bird and Kevin New-

ell of Peterborough spent the weekend at their homes.

Book exchange will be taking place in this section of the county, Wednesday, February 25.

Tim Davies has returned to Edmonton, Alberta, after a holiday with his family.

The monthly library culture centre meeting will be at the library on Monday, March 2 at 8 p.m.

Mr. and Mrs. G. Dawkins and Beverly spent Sunday at their cottage.

Mrs. Clare Brown and Mrs. Lyman Cox attended the W.I. District Directors meeting in Norland last Monday.

Visitors with the Phil Robinsons over the weekend were: Bradley Robinson of Weston; Pearl and Eileen Cockburn and Len Coats, all of Woodville.

The regular library committee meeting will be held at the library on Thursday, March 5 at 1:30 p.m.

Mr. and Mrs. Harold Coulter and Mr. Angus Coulter spent Thursday in Kirkfield with Mr. and Mrs. Leslie Coulter.

The regular meeting of Minden United Church women will be at the church hall on Wednesday, March 4 at 7:45 p.m.

Keep in mind these two dates, March 14 in Haliburton at 7:30 p.m. and Sunday, March 15 in Minden at 2 p.m. That is when the figure

skating clubs are combining in the fantasy "Toyland on ice".

Minden Women's Institute held their regular meeting at the United Church Hall on Wednesday, February 18. The president, Mrs. Clare Brown opened the meeting with the poem, "When Someone Walks Beside Me".

The regular business was dealt with then Mrs. Bunker showed the finished quilt. Tickets are now on sale for this lovely quilt from the members and are 50 cents or 3/\$1.00 with the draw to be on May 30. Correspondence was dealt with and the card convener reported sending 24 cards since January meeting.

Mrs. Bunker presented the guest speaker Mrs. Burgess who spoke to the ladies about the lives of the women of Africa. These women are the mainstay of the homes as they do all of the work with the help of the children. The religion of the Africans differs very much from ours as voodooism and witchcraft are very hard for missionaries to work against.

Mrs. Milt Sears thanked Mrs. Burgess for her interesting and enlightening address and presented her with a gift from the W.I.

As usual Mrs. Sears kept everyone laughing while the committee prepared a delicious lunch. Adios and take care now.

Gooderham News

by Mary Hadley

The Stump Jumpers' Snowmobile Rally held on St. Valentine's Day was a huge success. Those who participated in the snowmobile trips enjoyed their rides with ideal weather conditions. One trip was led by Ron Barr who took them over Wolfe, Bear, and Portage Lakes, along the Minniecock Road to Kosh-long Lake, thence south on the groomed trail to Gooderham. John Beck led the other trip to Anstruther Lake and return. At 4 o'clock a group gathered to witness the "sod turning" for the new community centre. Reeve Ken Maguire acted as M.C. M.P.P. John Eakins spoke, saying that he had been involved in the early stages in helping the township procure a grant and now he was

interested in seeing the building getting underway. He commented that it should be a focal point for community activities and he had noticed that a community without a focal point often became a dying community.

Pastor Sauve led in prayer, invoking a blessing on the building and praying that it might fulfil a need in township activities. Pictures were taken of Honoured guests and council members as the first

"sod" was turned -- a momentous occasion!

Following this ceremony all returned to the fire hall where a turkey dinner "with all the trimmings" awaited them. Many compliments on the excellence of the meal were received. The tables were attractively centred with paper roses, made in the Tuesday craft class, under the direction of Mrs. Priscilla Mintz. The pretty Valentine decorations were made at the Gooderham school, and kindly donated for this occasion. A Valentine cake, made by Pauline Parnell and decorated in such an artistic manner by Priscilla Mintz was first prize in a draw and was won by Ron Vance. Second prize was won by Elgin MacDuff.

The day culminated in a dance which was well attended and enjoyed by all. Door prizes, boxes of chocolates, were won by Buck Hillis and Walter Franke.

The Glamorgan Recreation Committee deserve much credit for their efficient planning and efforts without which this day would not have been so financially rewarding. They would like to express their appreciation to those volunteers who helped so willingly in preparing and serving the supper, to those who donated baking, and to those who patronized. All efforts were truly worthwhile.

Not only is the community centre underway, but parents are anticipating programmes for their children. Some interested parents viewed the gymnastic programme at the Haliburton Highlands Secondary School and felt this would accommodate all the children of our area and that it would be a worthwhile project to start planning for. Watch for more news about these plans at a later date.

The South Algonquin Kinsmen's Club presented their Winter Wonder night, Saturday, February 14 in the Monmouth arena. In the first period of a broomball game, the C.K.V.R. No Stars met the Bantam hockey team. The Monmouth Figure Skating Club then presented an exhibition of their ability. Shelly Hunter performed two solo numbers which were well executed. Two groups took part - one group composed of quite young skaters who had as much fun as the onlookers. The girls wore pretty red and

white outfits in honor of St. Valentine. Those skaters from our community were: Wayne Barr, Carrie Billings, Kathy Sauve, Sharon Thornton and Robin McCausland. The No Stars then met the Kinsmen who dressed in clown suits. Much fun and hilarity resulted, especially when Ron Barr tried to score on a penalty shot. The game ended in a 2-2 tie. It was a busy night for some Glamorgan residents taking part in this event as well as their Valentine Snowmobile Rally and dance at Gooderham.

Funeral services were held on Monday, February 16 from the Mackey Funeral Home in Lindsay for Miss Laura Madill, formerly of Lindsay, who died in Bobcaygeon. She was born in Glamorgan, the daughter of Mr. and Mrs. Tom Madill. She was one of a family of 12 of whom only four survive, Martha, Kate, Albert and Mace. Among those who predeceased her were three brothers who lived in Gooderham, Alex, Tommy and Allan. Interment will take place in the Gooderham cemetery in the spring. Those from Gooderham who attended the service were: Mrs. Geo. Hunter, Mrs. Audrey Prentice, Mrs. Mirl MacDuff and Mrs. Priscilla Mintz.

Miss Colleen Oldham of Mount Albert was killed in a car accident at Manchester last Sunday. She was a sister of Dale Oldham who operated the Texaco station here not so long ago. Our sympathy goes out to the family.

Mr. David Graham has returned from a few days' stay in Peterborough Civic Hospital. We hope the leg heals fast and gives no further trouble, David.

Glamorgan Sr. Citizens met in the fire hall Wednesday, February 18. Since February 11 was so stormy, the Valentine party scheduled for that date was postponed until February 18. After luncheon, Valentine games, planned by Jean Frazer, were enjoyed by all 31 present which included seven guests. In one game, each started out with three hearts pinned to his sleeve. A heart was forfeited when you gave a "no" reply to any question throughout the afternoon. Gilbert Harrison collected 20 hearts and so was the winner. Other games involving balloons and listing and singing love songs caused much

laughter and activity. Prizes were won by: Roy Parnell, Gilbert Harrison, Alice Parnell, Edna Tighe, and Nora Billings. Jean Frazer decorated the tables quite prettily with Valentines, flowers, candles and such motifs. Following these games, cards were played. The afternoon was very enjoyable, thanks to the efforts of Jean Frazer and the good sportsmanship of the participants. Youngest guest was six month old Janice Edwards, granddaughter of Mrs. Audrey Prentice.

We are glad to see Ivan Hunter has returned home after a stay in St. Joseph's Hospital, Peterborough. We hope he soon regains strength and is able to be out and around again.

Mr. and Mrs. Merle Pick-

ens of Timmins were weekend visitors at the home of Merle's mother, Mrs. J. E. Pickens.

Mrs. Barbara Edwards, with her son Douglas, and daughter Janice, spent last week with her mother, Mrs. Audrey Prentice.

Miss Dorothy Robertson attended the annual dinner dance at the Toronto Branch of the Royal Scottish Country Dance Society in the Royal York hotel. This society has its headquarters in Edinburgh throughout the world, the Toronto branch is the largest. The gala affair included dinner followed by dancing from 9 till 1 a.m. in the Canadian Room with 600 dancers in attendance.

Mr. and Mrs. Jim Dewey and Mr. and Mrs. Dawson MacDuff flew to Barbados for a week's holiday.

Kinmount Korner

by Millie Moss

Robert Allen celebrated his birthday at his home at Galway Road last Saturday with a party at which many relatives and friends attended. Twenty-four relatives stayed over night with Mr. Allen after the party. Then on Tuesday, Florence and Phil Robinson spent some time with him, having a very pleasant visit.

I see Joe Crego is still sporting a cast on his broken hand and I hear Pauline Smart is suffering a broken leg and the little Wallace girl is recuperating from a bad burn. I hope all you sick and injured are better very soon.

That big house fire some of you saw last Tuesday in Norland, was not my mother's house, as some thought but the empty house belonging to Bill and Lorrie Moss. It had suffered a fire late last

year and had to come down so it was bulldozed and ignited. It seems kind of sad though, that just a few hours later there was absolutely no sign that a house with so much personal history behind it, had ever stood there.

A couple of weeks ago I wrote up a recipe which so many of you had asked for only to receive the paper and find it hadn't made it into print. I've certainly been asked about it since then, along with a number of articles I'd written that week, which just did not make it into the column. I apologize to all of you involved but all I can say is that it was sent in and I do believe a sheet of our news had been missed at printing time. Anyway, here is the recipe once again and thanks to Betty Lonsdale for it. The ladies and gents at the

horticultural meeting certainly enjoyed it last month. English Trifle: 1 sponge cake, 1 tin fruit cocktail, 1 tin mandarin, 1 large jelly, any flavour, 1 pkg. custard powder, 1 pint of milk, ½ pint of whipping cream, sherry. Place sponge cake in glass bowl and cover with sherry. Pour the fruit cocktail over the sponge, reserving some of the juice. Make your jelly, using the juice instead of some water to help the flavour, then pour over the sponge and fruit cocktail and put in the fridge and let set. Make your custard re instructions on the package. Let it cool a little, then pour over the jelly and then put it back into the fridge to set again. Just before serving whip your cream and spread all over the custard. After straining the mandarins, decorate the whipped cream with them any way you like. A few chopped nuts may be added to the top and it's a delicious dessert for a special treat. As Betty says "it's smashing".

Mrs. Lloyd Willmott and son, Brian, of Nogie's Creek were Sunday guests of Bertha, Bill and Keith Stata. Happy birthday to Bertha Stata on Tuesday, February 17 and a happy 10 year

retirement on February 18. I hope you're recovered from your rough time on your birthday, Bertha. Getting stuck and falling is definitely not for birthdays.

Glad to hear Bill Stata is recovered from his bad cold. It's your turn next Bill Wilson, so get better from your cold soon.

I enjoyed phone chats with Hugh Phillips, Win Wilson, Joan Hyams and Bertha Stata, Wednesday morning and I'm glad to hear Joan Hyams is feeling much better after her back ailments of late.

We just received the phone call of a lifetime, Wednesday, February 18, 12:15 p.m. Jason has come home from Sick Children's Hospital and turns out one of the drugs he's been on has been doing all this damage. He had a severe allergy to it and they found it at Sick Children's by the "trial and error" method but all's well that ends well. Jason was bubbling over with the fact that "Father God" was in to see him on Tuesday at the hospital. "Father God" being Jason's name for Father Brooks and he was certainly enthused by a war time knife as he called it, that Father Brooks showed him.

Dolly LeCraw was the lucky winner of the Norland Firemen's hockey pool on Saturday, February 14.

"Sis" Gillis is still suffering from a broken rib. We miss you at bingo "Sis" so get better soon.

Some 15 or 16 ladies showed up at the home of Joyce, Jack and Ernie Hills on Wednesday evening for the regular meeting of St. James A.C.W. where business at hand was conducted. The St. Patrick's tea and bake sale will be held at St. James Hall in Kinmount on Saturday, March 14 from 11 a.m. to 3 p.m. Come out and enjoy lunch and maybe take some home baked goodies home with you.

Sick with flu this past week were members of the Simpson family in Kinmount and Clyde Pardy in Kinmount. Get well soon, folks.

Euchre results at Galway Hall last Wednesday evening: men's high: Leon Wright men's low: Ken Young, ladies' high: Ida Young, ladies' low: Alma Harper, most lone hands: Ray Hobbs.

The Kinmount Public school in junior and senior divisions of public speaking will be held in the hall at the

Wilberforce News

by Winnie Schofield

The Hastings County tri-county hockey play-offs are bringing some exciting games to the Wilberforce arena. Many excellent games have provided good entertainment and have resulted in good attendance each week. We understand that this league will be expanding next season to include more teams.

The Coca Cola Company have donated a large time keepers clock to the Monmouth arena. This will replace the original clock that was placed in the arena by the Monmouth firemen some years ago.

The figure skating club have a large membership again this year. They are preparing for their coming carnival to take place on March 20. It will promote the centennial theme.

We are happy to announce the arrival of Tamara Lee, a lovely little daughter for Debbie and Lionel Blakie. Tamara Lee was born in

Haliburton on February 13. She is a grandchild for Mr. and Mrs. John Jackson of Wilberforce and for Mr. Lionel Blakie of Port Perry. Her birth weight was 7 lbs. 9½ oz.

The recent spring weather is welcomed by all. Robins and crows have been seen and heard in this area.

A special medal should be issued to the brave souls who undertook the job of enumerating this past week. The work commenced on Monday morning and it rained most of the day. Tuesday found everything covered with ice. Sensible folks stayed home that day while the enumerators crawled over icy roads sometimes on hands and knees. It was discouraging to descend a long hill to reach an isolated residence, find the occupant absent and then be unable to gain enough grip on the ice to regain the highway. A friendly passing neighbour at this time gave valuable assistance in carrying dirt

from the highway to give traction to wheels.

One evening visit required driving through pea soup fog over miles of hilly road to find no one at home. The thaw that set in made great puddles of water to wade through. Every house had a dog. They were tied up outside and gave a noisy welcome. None seemed vicious and they were happy to have an intruder break the monotony. It was gratifying to find such a cheerful welcome from everyone with a warm invitation to place muddy boots on polished and carpeted floors. Wilberforce residents proved friendly and helpful which compensated

for the miserable weather conditions.

The members of the U.C.W. met at the home of Marilyn Crane for their monthly meeting. A period of devotion was followed by the reading of a letter from the Canadian Bible Society concerning bibles being sent to foreign countries. The U.C.W. will obtain membership for this good service for a period of one year. This will provide a bible a month from the bible society.

Recently money was donated to the Busy Beaver Club to assist in the purchase of craft material for this group

Snowdon Supporters News

The Snowdon Business and Community Group held their monthly meeting on Monday evening, February 16, 1981.

The Ski Trail report indicated the cross country ski trails are about two-thirds finished, and hopefully, weather permitting, completion will be within the next couple of weeks. There have already been favourable comments received from a number of local residents who have ventured out onto the trails.

The Valentine dance appears to have been a success. The tickets were sold out a week before the dance. The entire evening went as if on a schedule with good music, good food, and good fellowship. Even before the night was over, many asked when

the next dance would be. As a result of this reception, another dance is tentatively being planned for mid-April. Complete details will be announced when arrangements have been confirmed.

The proceeds from the Valentine dance have been roughly split three ways. One-third has been allocated toward the cost of our Ski Trail liability insurance, one-third has been held by the Snowdon Supporters as a reserve for use in funding future events, and one-third has been split between three of the community supported activities in the township: The Gelett Community Centre, The Lochlin Community Hall, and the Ironside Anglican Church.

The last topic of discussion at this meeting was our "Family Fun Day" -- to commemorate the opening of the ski trails. This event is planned for Sunday, March 1, 1981 at the future site of the Snowdon Community Park, on Highway 519 south of the Minden Road.

The plan for this day is to have the partially opened ski trails ready for use, with ski rentals available. For those who wish to try the sport there will be a "novice" trail for the inexperienced. Also, a toboggan hill and a skating rink will be available. We hope people will bring their skates, snowshoes, skis, etc. and enjoy the day's outing. Hot soup and refreshments will be available at the site.

The major problem, as this is being written, is the 48 degrees F temperature outside.

Cont'd. page 14

Kinmount Korner

from page 11
Kinmount Legion, March 9 beginning at 7:30 p.m. and continuing on for one or two hours. There is no charge for this event and everyone is cordially invited to attend. Why not give an hour of your time to come and hear what our future Canada has to say? See you there!

World Day of Prayer will be celebrated at Kinmount United Church on Friday, March 6 at 2 p.m. The theme having been written by native American Indian women: "The Earth is the Lord's" - "Au Seigneur, la terre". Ladies representing our towns Anglican, Catholic and United Churches will be reading the service so why not plan to be there?

Our congratulations go out to a former Coboon citizen, Don Lake, now of Don Mills, Ontario, who has retired from the C.N.R. where he had been employed for over 39 years. The very best of luck, Don.

BOYNE LAKE - Luv frame home on 550 ft. lakefront and twp. road. \$39,500.00.

We are members of A. E. LePage, Coast to Coast Real Estate Service.

Irene Bartley and Marion Vanderlip of Norland will be flying down to Tampa, Florida for a couple of weeks this month for a well deserved rest. Have a lovely holiday girls.

Another victim of a few hours of the flu bug recently was Barb Fountain.

The firemen's broomball teams were washed out by water on the ice and the foggy conditions last Thursday evening but never fear, they'll be back next week.

The weather has been so springlike this past week I got an early start at cleaning our basement. Well, you have to start somewhere!

Give me a call at 488-2399 if you have any news you'd like to pass along. Why keep it to yourself? Have a nice day.

Guild News

never been done before. Debbie will be calling around soon asking for volunteers, so bring your ideas and let's get moving. Let's make this year's show and sale one that will be talked about in years to come, as the best one ever.

her first baby in March. The hostess was Mrs. Murray McEachern, her aunt, at whose home the event was held. The mother to be received many lovely gifts and after the guests had admired them Robin graciously thanked the donors. A repast was served by the hostess.

I'm afraid the mild weather hasn't been too conducive to ice sculpting, but we are hoping that there will be some who persist in their efforts to produce a model. We are supposed to have some colder weather which may be with us by the time this is in print. If you have completed a model and wish to compete for one of the prizes call either Reg Moulton at 766-2410 or Rob Robson at 766-2749. The judging takes place on February 28.

We would like to thank

Joseph Wilbour of Fonthill for his letter of appreciation sent to the editor of the Bracebridge Gazette.

We would like to congratulate one of our young people, Paul McLennan, who is in his first year at Georgian College, Barrie studying Resource Engineering Technology, who received the Cooper Tool Group, Ltd. award on the basis of his academic achievement and effort, and his practical ability. We are always proud of the students from the village, who, when they leave our school system and go to college and apply themselves so diligently that they receive special honours.

H.H. If you seal a letter and then remember that you have forgotten something you wanted to include just unseal it by pulling the sealed part back and forth over a hot, lighted electric light bulb. Sneaky, eh?

NOTICE

The Ministry of Natural Resources is offering the fourth sale of fuelwood, cut in random log lengths and piled on Lot 3, Concession 13, Hindon Township, approximately 22 miles north of Minden.

This fourth tender for 50 cords will close March 3, 1981. Tender forms and additional information may be obtained from the Minden office of the Ministry of Natural Resources.

SENIOR CITIZEN APARTMENTS FAMILY RENTAL HOUSING

If you are sixty years of age
or over
or
If you have one or more children
THIS
IS OF INTEREST TO YOU!

The municipal Council of the Townships of Stanhope, Lutterworth and Anson, Hindon and Minden in conjunction with the Ministry of Housing, is conducting a survey to determine the need for market and assisted rental housing for senior citizens and families in your community.

Questionnaires are being distributed to senior citizens and tenant families as part of a survey to determine the interest of this type of housing.

ONLY BY COMPLETING A QUESTIONNAIRE CAN YOU HELP TO DETERMINE WHETHER THERE IS A DEMAND FOR MARKET AND ASSISTED RENTAL HOUSING FOR FAMILIES AND SENIOR CITIZENS.

Families and seniors interested in obtaining more information should contact the Clerk-Treasurer of their respective township.

from page 9
history of Quebec. The city is famous for its many sports. It is a pleasure to explore and a place for romance.
Tuesday morning Rev. Douglas Miller of Minden United Church held an inspiring service in the chapel. Mrs. Agnes Taylor was here to play the organ for us and it was nice to have Barbara Trociewicz along to lead in the singing.
There was a good turnout to the bingo game which was held in the main lounge later in the afternoon.
Tuesday evening, we were pleased to welcome Mr. Fred Ballard who played the organ for music night. Our thanks to Fred for a most enjoyable evening.
Wednesday evening, the residents again gathered in

the main lounge for games night. They enjoyed euchre, cribbage and crockinole. Our thanks to Stan and Aileen Blears for their help.
The Ingoldsby U.C.W. brought an assortment of tea breads and cheese for the Thursday tea party. Everyone thoroughly enjoyed the lunch and visiting with the ladies. Thanks girls for a very nice afternoon.
Thursday evening the Kinsmen were here to call the numbers for the weekly bingo. The residents always look forward to playing bingo with the Kinsmen.
The week of activities ended on Friday afternoon with Grace Coburn leading the sing song. Fred Ballard played the organ for us while we sang some hymns and old favourite songs.

Glamorgan township holds February session

At a meeting, February 4, Glamorgan Township council considered the following:
Council acknowledged receipt of the report dated December 30, 1980 and the solicitor's report dated December 2, 1980.
The fire chief's report dated January 20, 1981 was acknowledged and accepted.
The clerk will ask for a reply to council's letter dated December 15, 1980 from Mr. Ross Madill so council can proceed with purchase of property.
Council deferred correspondence to T. Davidson re township purchase of roadway, Lot 30, Concession 7, until correspondence is completed.

pleted with Miss Donna Hines.
A follow-up letter will go to Miss Donna Hines regarding acquiring title to the roadway which crosses the back of her property in Lot 30, Concession 7.
Correspondence regarding the township assuming M.N.R. road at Wolfe Dam was deferred to road committee for recommendations to council on March 4 and H.A. Holt will be advised of this report.
The program of proposed expenditures for highway improvements for the year 1981 was approved in the total expenditure amount of

\$117,000 for maintenance only and application for supplementary subsidy allocation for construction will be made after receipt of a report on the state of repair of the Pine Lake bridge from M.T.C.
Council will petition the Ministry of Transportation and Communications for final subsidy on 1980 road expenditures.
The following accounts were approved for payment: general, \$6,130.09; O.H.R.P., \$3,778.50; and welfare, \$4,688.47.
R. P. Montgomery on Minnick Lake will be sent all correspondence and petition

re public access to Minnick Lake.
A special meeting of the Glamorgan Township Council was called by the acting reeve (in the reeve's absence) on Thursday, February 12, 1981 at 10:00 a.m. to discuss community centres construction.
Some discussion ensued regarding sub-contractors, trades and local suppliers and labour.
The reeve and clerk were authorized to execute an easement in favour of Ontario Hydro on the original allowance for road lying between Lots 10 and 11, Concession 15, Township of Glamorgan.

The draft agreement regarding Redstone Pines Inc., Part Lot 15, Concession 15, Township of Glamorgan was referred to the township's solicitor for advice and comment.
By-law 80-24, a by-law to close, stop up and convey a part of the original allowance for road between Lots 10 and 11, Concession 15, Township of Glamorgan, having been advertised as required and there being no objections, was passed.
By-law 80-25, a by-law for stopping up and authorizing the conveyance of part of the road allowance lying between Lots 15 and 16, Concession 14, Township of Glamorgan, having been advertised as required and there being no objections, was passed.
Application for consent H8/81 was deferred to March 4, 1981.

ship policy regarding closing and conveying of shoreline road allowances and that his certified cheque be returned.
Correspondence from George and James Morrison was deferred pending establishment of a township policy dealing with closing and conveying shoreline road allowances.
The clerk will set up a meeting with the Ministry of Housing re planning matters.
Elva V. Bates will contact Bell Canada on proposed telephone and jacks at Glamorgan Community Centre.

At least three persons will attend a workshop on the Environmental Assessment Act at Peterborough, Ontario.
Cheques will be issued to cover registration and accommodation for the Good Roads Convention.
The matter of shoreline residential zoning was raised, particularly the definition of "seasonal use". It was decided the matter would be discussed with Ministry of Housing staff at the meeting to be arranged.

Farm News and Views

During the past year pork prices have been severely depressed and most pork producers have been losing money. When prices are low that's a temporary advantage for consumers. However, if prices stay too low too long, then many producers are forced out of business. The result then can be very high prices for a limited supply of that food.
Farm stabilization programs are designed to help carry farmers over periods of low prices, hopefully helping enough of them to remain in business to prevent too great a fluctuation in food supply and price.

The government of Canada has an ongoing stabilization program for farmers producing market hogs. These farmers received a payment under this program last summer, and it is quite likely a payment will be made for this current year.
Many pork producers keep sows which produce weaner pigs. These weaner pigs then often go to other farms where they are raised to market size.
The government of Ontario has a stabilization plan for these sow-weaner producers. This plan works on a six-month basis. It started last April, and will continue for five years.
Farmers who joined that plan last summer received a stabilization payment of \$51.94 per sow last fall.
We are now in the second six-month term. The depressed hog prices in December and January have made it virtually certain that there

will be a payout from this plan for this period.
Pork producers who are already in the Sow-Weaner Stabilization Plan will have received their sow registration forms by mail recently. These forms must be completed and sent in by March 1.
Farmers in Victoria and Haliburton Counties with sows, who did not join the plan last summer and wish to join now, should contact the Lindsay Agricultural Office right away to obtain an application and registration form.
The number of sows owned on the farm on February 1 is the number which can be claimed in this period. The stabilization fee is \$10. per sow for the current period.
March 1 is the deadline for applying to participate in the Ontario Sow-Weaner Stabilization Plan for the current six months.

Extendicare News

from page 9
nation are spewing out particulates that poison the atmosphere for all animals including fish and have a deleterious effect on plant life. The next item also growing by increasing momentum is smoking, pipe, cigars, or cigarettes, but now only because of the cancer scare but more because society is finding that it is obnoxious and even revolting to the purists. It is even costing as much as a \$100 fine to smoke out of bounds. Next on the list is personal pollution. It used to be that most people carried a handkerchief until kleenex came in vogue; now people are finding that very often either a handkerchief or kleenex is such a nuisance that neither is carried so they simply sneeze or cough right at you, knowing no better. Another is chemical pollution, a terrible spin-off of garbage disposal. Those often cancer causing chemicals are being dumped in increasing amounts. Relatively indestructible, they

are dumped on farm land, or even clandestinely into city sewers, ultimately filtering into society's drinking water. Just think, in the first decade of this century pollution was an infant.
On our trip south we will try to take extendicare with us.
